## "GET NEW RAILROAD" HEARD EVERYWHERE

### Commercial Club Expected to Take Up Proposition For a New Road at Once.

President Joseph L. Friedman, of the Commercial club, is expected home tomorrow, and the club, one night next week, will hold a meeting to take up the proposition of another railroad for Paducah.

"I am very glad to see the interest that is being finally aroused in this matter," said a director of the Commercial club today. "This club has been, for some time, trying to awaken the people to a realization of the importance of doing something toward getting another line into the city, and now that the 'cut off' from Gilbertsville to Mayfield, which has been threatened for years, seems a certainty, the needs are more pressing."

"We must be alive to the situation, and the articles in your paper are serving to apprise the people of the condition we may soon expect and what we must do. Do you know, every railroad in the country now has its eyes turned Southward, and the probabilities are that more construction work will be done in the South the next few years than in any other section of the country. One reason is the great growth of this section, and another is the Panama canal construction, and what it means is seen and appreciated by the railroads and they want to get in a position to derive some of the benefits of it."

"We must, therefore, strike while the iron is hot, and turn some of these roads to Paducah,—one of the gateways of the South. The proposition to induce the L. & N. to build its proposed road to Cairo from Pa-

ducah instead of Murray is a movement along the right lines, and your articles have set forth what a great thing it would be for Paducah, in a splendid manner. Tap the six roads now at Cairo, as you would by the L. & N. extension from here there, and the two others at Thebes, and you will give us the facilities we need so badly."

"We must do as Cairo has done. The roads down there gave her the go-by, as the L. C. will do with its cut off at Gilbertsville, and a number of her citizens got together and organized the company that has secured the best terminals in that city, and acquired the rights of way up to Thebes, which connects her with two other roads. When she had done this she offered these things to the L. & N. and they eagerly took advantage of them. Cairo has just given these people the right to construct sixteen tracks on Walnut street, one of her principal residence streets, and eight on another. She saw how it hurt her to have all the through trains running via Cairo Junction instead of coming into the city, and she also saw the great advantage it would be to have just one more road into the city and the events transpiring down there have justified her judgment. We must go and do likewise."

Councilmen sounded on the proposition have agreed with Mayor Yel-ler that the city officials will do all they can to aid in getting a new road into the city, and one councilman said today: "I wish the proposition was before us right now."

## THE MAYOR SIGNS TAX LEVY MEASURE

### Affixed His Signature to the Ordinance Today.

Mayor Has Sent for Copies of all  
Bills Affecting Paducah.

### WILL RE-APPOINT SOLICITOR.

The mayor has signed the tax rate ordinance which was finally passed at a special meeting of the aldermen yesterday afternoon and it is now a law.

The rate is \$1.65, which is a reduction of 20c from last year. The council, in making its apportionments for this year, cut a good many of them, which enabled it to reduce the levy. However, with its reduction of the rate, it proposes to do a good deal of improvement work this year, and may have a little balance on hand at the end of the fiscal year.

### The Mayor Sends for Copies of Bills.

The mayor today sent for a copy of all the bills passed by the legislature that affect cities of the second class, in order that he may see what was done for these cities, and what the new laws are.

"I am especially anxious to see the bill giving the cities the right to make street improvements without consent of the property owners," he said today, "and am also anxious to see the other bills passed."

### City Solicitor Campbell

#### To Be Appointed.

The governor has signed the bill empowering the mayors of the second class cities to appoint the city

solicitor. City Solicitor James Campbell's term of office will expire next November, and the mayor will appoint him for another term. Under the provisions of the bill, that term will expire in 1908, but thereafter the terms will be for four years.

### MORE BAD WEATHER.

#### Snow Along the Atlantic Coast—Cincinnati Has Eight Inches.

Norfolk, Va., March 24.—Heavy snow is falling today with a severe Atlantic coast storm. Three stranded schooners on the North Carolina coast are fast going to pieces in the high seas. Life savers are making an effort to rescue the crew of the schooner Fannie Palmer, which is in a dangerous condition.

Heaviest of Season at Cincinnati. Cincinnati, March 24.—The heaviest snow of the season covers the ground to a depth of six inches on a level and snow is still falling, with more promised tonight and tomorrow.

### Pirates Expected to Get Money.

Hong Kong, March 24.—It is learned that the Standard Oil company planned to send \$20,000 in specie aboard the launch captured by pirates yesterday, but later the plan was changed and the money was not aboard the vessel. The pirates captured the launch by throwing a stink pot among the crew.

### Death at Tyler.

Mrs. John Smith died yesterday at her home in Tyler beyond Mechanicsburg, of pneumonia. She was fifty years of age and is survived by a family. The remains will be taken to Grand Rivers for interment.

### A Prefect Murdered.

Constantinople, March 24.—Redvan Pasha, prefect of Constantinople, was murdered today while enroute from his country home to the city.

## Keeping Up the Cows Will Increase Value of Real Estate Five Percent

The enforcement of the stock law will increase the value of residence property at least 5 per cent," said a real estate agent today, "and I think it is one of the very best things in the legislative lines that has been done in Paducah in years."

Everyone seems pleased that the law was declared constitutional, and a general movement will be inaugurated to get the property owners now

to take down their fences, and thus add to the beauty of the city.

The people who own cows should take steps at once to provide for their keeping, as the mayor has announced that he will allow them five days after he receives a certified copy of the court's opinion in the case, before he will order prosecutions under it, but that he will see that the law is enforced rigidly after that.

## MANY ATTENDED THE LAST RITES TODAY

### Funeral of the Late Rev. John S. Cheek Held This Morning.

A Number of Out-of-Town Minis-  
ters Were Present at the  
Services.

### THE BURIAL AT OAK GROVE

The funeral of the late Rev. John S. Cheek, pastor of the First Baptist church, was held this morning at 10 o'clock at the church, and was attended by one of the largest crowds ever seen at a funeral in Paducah.

Rev. George W. Cates, of Louisville, assisted by the acting pastor of the church, Rev. Gordon Hill, of Louisville, conducted the services.

The church was packed to overflowing, and scores of people were unable to even get inside. There were addresses by the Rev. Cates and the Rev. Hill, followed by Mr. W. E. Covington, one of the deacons. Rev. Peter Fields, of the Third St. Methodist church, also made a brief address, as did Rev. A. S. Pettie, of Mayfield. Mr. Fields was appointed by the Ministerial Association of the city to represent them at the services.

Among the prominent visitors in attendance were: Rev. C. H. Nash, of Hopkinsville; Rev. J. C. Bow, of Louisville, who also made feeling tributes to Dr. Cheek as a man and co-worker; Rev. A. S. Pettie, of Mayfield; Rev. G. M. McNelly, of Russellville. There were also people from Henderson, Madisonville and other Kentucky towns where Dr. Cheek was so well and favorably known.

Great and sincere grief was expressed on all sides at the death of this popular man, and there were times during the services when there was not a dry eye in the house.

Members of the Paducah Ministerial Association attended the funeral in a body. It was after noon before the cortege started for Oak Grove Cemetery, where the remains were laid to rest with services by the local Commandery, Knights Templar. The pall bearers were all deacons of the church: Messrs. J. R. Puryear, J. C. Porter, J. T. Reddick, F. N. Gardner and E. H. and W. E. Covington.

The church was draped in black, and the floral emblems were almost innumerable, and extended entirely across the chancel. They were beautiful in design and testified to the love Dr. Cheek had inspired in his brief residence here.

### Well Known Traveling Man Dead.

William J. Sinex, a well-known traveling man, died at his residence in New Albany Ind., of pneumonia. Mr. Sinex, who was forty-eight years of age, was taken suddenly ill last Saturday with congestion of the lungs. Pneumonia developed later. He is survived by his wife and daughter, Geneva Sinex. He was favorably known throughout Indiana, Kentucky and Tennessee as the traveling representative of "Pearline," and often came to Paducah.

### Mr. Chas. Kiger's Brother Dead.

Mr. Charles J. Kiger, the drug drummer, and sister, Mrs. Charles E. Jones, of Charlottesville, Virginia, left today for Winchester Va., where their brother, Mr. Joseph Kiger, died yesterday. Mrs. Jones has been visiting her brother here.

The deceased was thirty-eight years of age and one of the best known young business men of Winchester. His death was sudden.

The deceased is survived by two brothers and a sister, Mr. Chas. Kiger and Mrs. Jones, and another brother, Mr. John Kiger, Jr., of Princeton, Ky. Mr. and Mrs. John B. Kiger, Sr. are parents of the deceased.

### Death at Murray.

Mrs. George C. Diuguid this morning received a telephone message from Murray announcing the death there of her husband's sister Mrs. J. G. Sledd, who had been ill a long time from consumption. Mr. Diuguid was called to her bedside last Tuesday. The deceased was 55 years old and leaves two stepchildren and several sisters and brothers, besides her husband.

A Japanese, writing in the Paris Illustration, says: "Britain, even with her fleet is but a transient guest in the Far East."

### H. H. ROGERS TALKS.

Standard Oil Magnate on Stand—  
Hadley Says He's Satisfied.

New York, March 24.—Compelled by the courts, H. H. Rogers, the Standard Oil magnate, answered questions freely today in the investigation being held by Attorney General Hadley, of Missouri. It is admitted for the purpose of this case that now during the period covered by this information the majority stock of the Standard Oil company in Indiana and the stock of the Republic Oil company is held for the Standard Oil company of New Jersey, and that all shares of stock of the Waters-Pierce company on the books of the company in the name of N. M. Van-buren are held for the Standard Oil company of New Jersey. This was admitted by all the counsel for the respondent companies and Attorney Hadley said: "I am satisfied. I got everything I came for."

### BUYS CHURCH TO START SALOON

Pittsburg Dealer Adopts Novel Plan  
to Head Off Protests.

Pittsburg, March 24.—John Cline, 7311 Butler street, applied for a license to sell liquor at that address last year, but the permit was refused because a church was located in the same square and its members objected. Today Cline was back in court with another application, and there were no church people present to protest. Judge McClung thought this strange, and questioned Cline. He found that Cline had solved that problem by buying the church property and compelling the congregation to move. The court has his application under advisement.

### SEVEN MURDERED.

Yaqui Indians Ambush a Family and  
Two Friends.

Los Angeles, Cal., March 25.—News reached here of the murder in Mexico of seven persons, five of whom were members of the family of Pedro Meza, and two friends who were massacred by Yaqui Indians within a few miles of their home. The bodies were left in the road.

Pedro Meza, one of the killed, was president of the Ladura, a rich mining contractor, and one of the most prominent men in the district. His wife and three children were also slain. They were returning from Guayamas when ambushed by Indians in the mountains.

### Gov. Pattison Improved.

Columbus, O., March 24.—A bulletin issued by Governor Pattison's physicians this morning was to record an improvement and a continuation of the rally of last night. It was comforting to those nearest the patient, but except to members of the family held out no substantial hopes. The great fear is that with the governor's waning strength he will not be able to combat the frequent sinking spells.

### Agreement Over Morocco.

Algiers, March 24.—The establishment of accord of all subjects connected with Morocco is now considered certain on the question of the establishment of a state bank. An agreement is understood to have been reached whereby France will hold three shares and Germany one. France shall police three harbors and Spain three.

## THE GOVERNMENT IS NOT SATISFIED

### Will Continue to Push the Beef Trust Cases.

Commissioner Garfield Said Not to  
Have Handled the Inquiry  
With Judgment.

### THE MEANS BEING DEBATED

Washington, D. C., March 24.—The department of justice will decline to accept as final the ruling of Judge Humphrey that the packers as individuals are immune. In this decision the president stands squarely with Attorney General Moody and his associates.

If the case against the packers cannot be appealed they will be prosecuted along other lines and under new suits. There is no intention on the part of the administration of dropping the matter just because there is an adverse decision. Instead of that, one finds set jaws and determined looks around the attorney general's office.

The only question now is how best to proceed. That the government will map out a line of aggression and take up the cases again can be definitely stated.

While there is no recrimination among the administration officials it is evident that much of the onus of blame lies on Commissioner Garfield. Even his closest friends admit regretfully that he has not handled the cases with tact, discretion and ability and foresight that could have been hoped for.

The present complication is largely due to his method of procedure. It is all the more unfortunate that in his Standard Oil investigation and other cases he has proceeded along identically the same lines, and it is considered a bad augury for further prosecutions in these cases that the ruling of Judge Humphrey has been given.

There was a conference at the White House yesterday lasting for several hours. The president, Attorney General Moody, Secretary Taft, Commissioner Garfield and others were present.

There was an instantaneous and unanimous agreement to push the cases against the corporations vigorously, but the practical escape of the individuals was a sore blow to the administration, which had set its heart upon accomplishing results and securing convictions in these cases.

The first subject taken up was the advisability of appeal. The attorney general was especially anxious to appeal but so far nothing has been found to warrant an appeal. Then the subject of proceedings against the packers under a charge of violating Justice Grosscup's injunction was discussed. There was no decision on this. The question of starting new proceedings upon new evidence was also suggested and this was thoroughly talked over but without result. There was only one conclusion reached and that was that something must be done—and would be done.

Late last night Attorney General Moody was in conference with Solicitor General Hoyt and his assistant, Milton G. Purdy, with the idea of carefully reviewing the law to see if under the present statutes an appeal could be taken and sustained. The attorney general clings to the hope that he may find authority in the law for an appeal and in case he does he feels confident that the decision of Judge Humphrey would be reversed.

All the power of the administration; all the brains that can be brought to the aid of the government, every avenue and agency that can be reached will be tried out to find ways and means for overcoming the reverse of the decision and going ahead with the cases. Conferences will go on daily until a decision is reached and a program mapped out.

### Baggageman Shoots Himself in Car.

Olive Hill, Ky., March 24.—Joe Miller, a Chesapeake & Ohio baggage master, attempted suicide by shooting in his car while on duty this morning, and is in a critical condition. Despondency over the death of his brother is presumed to be the cause.

The school of experience has fewer graduates than any other institution.

### THE WEEK'S NEWS IN THE COMMERCIAL WORLD

Bank clearings this week \$640,719.  
Same week last year ..... 613,050  
Decrease ..... 8,331

The bad weather of the past week has hurt business in all wholesale lines. It has been the worst week of the year. Retail trade, of course, has suffered a great deal, and the merchants are hoping for better weather next week. Most of the spring openings are on the calendar for next week, which is causing the solicitude.

Building was also brought to a standstill by the inclement weather. The architects report much building planned for this year, and as soon as good weather opens up the building trades should be busy.

The Commercial club committee which was appointed to raise \$1,300 to purchase a site for the Aycoek hosiery mills, which concern is planning to double its output, has secured all the money and Mr. Aycoek will start on enlarging the plant at an early date. He expects to be employing seventy-five hands in a few months, and have a building which will cost \$7,000.

### Bradstreet's Weekly Report.

New York, March 24.—Trade reports are still rather mixed in character, business feels the effects of continued winter weather, heavy snow falls and freezing temperatures which have hurt early fruits and truck interests, retarded retail trade and affected jobbing sales and shipments. Building has been interrupted but this is only temporary and the winter wheat crop has been put beyond harm by the heaviest snow fall in years at this period. Uncertainty as to the coal strike induces a hesitancy in some lines of industry, but has immensely stimulated the coal and coke trade.

Demand for money active, hence rates are firm and promise to continue so well into the balance of the year. Railway earnings are really magnificent, ratio of gross receipts carried over to net having never before been equalled. Additional interesting features are numerous reports of wage advances made in several industrial lines, and growth of feeling that the great coal strike will not occur, strengthening of prices of leading staples.

### Failures for Week.

Failures this week numbered 213 in the United States, against 225 last year; and 37 in Canada, compared with 166 a year ago.

### To Start Soap Factory.

The new factory to manufacture soap will be started next week by Dr. J. D. Bacon, the druggist, and will be in the Coca Cola building. He expects to make all kinds of fine soap.

### Goes On the News-Democrat.

Mr. Arthur E. Bailey, of the Paducah Register, has resigned his position and will go on the News-Democrat Monday. Mr. Bailey has been editor of the Register for several weeks but will do reportorial work on the Democrat. He succeeds Mr. Perry Melohn, of Murray, who resigned last week to return home.

### SMOOT'S SEAT.

### To Be Declared Vacant, Is a Late Report.

Pittsburg, March 24.—The executive committee of the National Reform association announced a communication from Washington to the effect that the senate committee on privileges and elections stood 9 to 5 against the retention of Senator Smoot, of Utah, in the senate.

The report of the senate committee has not yet been made, but the intimation has been conveyed to the Protestant churches, who took such an active part in the action against the seating of the Mormon senator, that the committee would report to the senate with the further recommendation that Senator Smoot's seat be declared vacant.

## Man Insulted Judge Bradburn at Benton But Fortunately He Was Totally Ignored

Yesterday at the Benton depot there came near being a serious difficulty resulting from the bitter feeling between the Holland-Keys factions of Calloway county. After the acquittal of former Sheriff Walter Holland.

After the verdict was returned the crowd went to the depot to see the attorneys and judge off. It is said by a disinterested spectator that feeling was running high and one member of the anti-Holland faction called

## COMMENCEMENT TO BE UNUSALLY GOOD

### Preparations are Already Under Way for Closing Exercises.

The Main Feature Will Be an Address by Some Celebrated Man.

### OTHER LATE SCHOOL NOTES.

Although it is over two and a half months until the public schools will close, the school authorities are preparing for the annual commencement and expect to make it one of the most satisfactory in the history of the schools. It will be a departure from the old stereotyped style of commencements which have proven a bore instead of entertainment to those who patronize them. The commencement this year will be up-to-date and if present plans are carried out a lecture by some national celebrity will be a feature of it.

"I am looking for a speaker who has done something; who will prove a valuable number on any program, and we intend to have such a man here to speak at the commencement," Supt. Lieb stated this morning. "Arrangements are already being made for the annual commencement and we estimate that there will be 18 out of the 20 in the graduating class to get through. We will have a valedictorian and salutatorian and with one or two choruses and music by the high school orchestra, will be the only feature distinctly local. The main feature will be the address and we expect to get some celebrity."

"Last year no regular commencement was held owing to the installation of the twelfth grade, the pupils from the eleventh going into the twelfth grade to finish. The class this year will be smaller than it has been on account of the methods of work, it requiring a great deal more to get through under the present system of grading than formerly. A pupil has to study harder and show that he is capable. Under the present system of grading we have 32 units or marks of credit for the entire high school term. There are four studies taken each half year making eight for the year and thirty-two for the four year term. If a person falls down in one credit during the first year and does not make it up during the other four years he will be one credit behind. He has to make 32 to graduate and there are always some who fall down in one of the four years, so the graduating class is not as large as it used to be. We have attained excellent results."

One very remarkable result of the new methods is the interest taken by pupils in their work. Formerly pupils were content to get through any way with any kind of per cent, but the competition in the work is so great that every one seems to be striving to do his or her best and excellent grades and an untiring interest is manifested.

The attendance in the school the past two days, particularly yesterday, has fallen off a great deal. The inclement weather cut the attendance at all the schools down yesterday but two sessions were held.

The next feature entertainment to be given by the High school will be the appearance of Miss Mannheim, of the School of Dramatic Art of Cincinnati, at the High school auditorium in a lecture on the afternoon of April 4th. Miss Mannheim will lecture at the Temple the same night.

### Watchman Killed by Robbers.

New York, Mar. 24.—Watchman Edward Pullman was killed by robbers while trying to protect the safe of Sodus & Co., lumber dealers. The robbers escaped.

## KENTUCKY NEWSLETS

**Kentucky Postoffice.**  
Washington, March 24.—Postmasters appointed: Falls, Henry county, Sallie Eddings; Nortonville, Hopkins county, William H. Trathen; Osborn, Floyd county, James D. Bush; Stockholm, Edmonson county, Marshall F. Demunbrun.

## A Fulton Marriage.

Fulton, Ky., March 24.—K. Rucker and Miss Annie Allen, of Fulton, were married by Esq. Fairrell. Mr. Rucker is a son of the proprietor of the Kentucky hotel and his bride is the 16-year-old daughter of Frank Allen.

## Free Delivery Postponed.

Mayfield, Ky., March 24.—The unexpected information has been received by the postmaster here from Washington that city free mail delivery would not be started in Mayfield on May 1st, but had been postponed until August 1. It is not known why this delay has been declared.

## Taken to Eddyville.

Mayfield, Ky., March 24.—Deputy Sheriff John Galloway and Dan Murphy left for Eddyville with J. B. Holden and Elmer Pruitt. Holden was sent up for five years for stealing a mule from T. G. Freecor, of Symonsia, while Pruitt was sent for two years on the charge of seduction. Holden is probably 60 years old as is shown by his hair that has long since been changed from a dark to a gray color. Pruitt appears to be not more than 20 years old.

## Killing Over a Dog Fight.

Middlesboro, Ky., March 24.—At the Yellow Creek mines Alonzo Lynch killed James Sizemore. Lynch used a razor and almost severed Sizemore's head from his body. The fight originated over a dog fight.

Lynch was arrested and hurried to Pineville.

Louis Miller, a German miner, shot M. A. Cordella, a Polish miner, wounding him seriously. Miller was arrested.

## No Increase in License.

Henderson, Ky., March 24.—At the meeting of the city council the effort to increase the saloon license in this city was defeated. Ten of the twelve councilmen were present and seven of them voted against the higher tax. Increasing the liquor license has been one of the hobbies of Mayor Harris. He has been at work on the ordinance for several weeks and did all he could to make friends for the movement. His efforts were of no avail.

## Convict and Bride Left.

Owensboro, Ky., March 24.—Humiliated by the publication of his romantic courtship over the telephone with Miss Victoria Korn, a telephone operator, for two years, while he was a prisoner in the Jefferson City, Mo., penitentiary, the honeymoon of Melrose H. Barringer and his bride was brought to an abrupt close here. The man who won his bride, while a convict, has been in Owensboro since Saturday practicing the profession of a palmist. Not once did either of them reveal the romantic nature of the courtship. They left Owensboro for Carmi, Ill.

## Champion Oyster Eater.

Hopkinsville, Ky., March 24.—"Bring me another stew," was the almost constant cry of W. H. Barks-

dale when at one sitting he devoured 12 dozen and two oysters. This gourmandizing feat was accomplished as result of a wager made by Mr. Barksdale that he could eat 12 dozen oysters. The oysters were served in stews, one dozen at a time, and after completing the 12th bowl, which contained two extra oysters, Mr. Barksdale stated that he felt no ill effects from the extraordinary meal, and that next time he would chamber 15 dozen.

Last Saturday he ate six dozen at one meal.

## Girl Preferred Death.

Owensboro, Ky., March 24.—"I am innocent; I would rather meet death than be called a thief." This was a portion of a note written by Miss Prudie Ford, a pretty 18-year-old Hartford college girl, which was found on the banks of Rough river. The young girl had been accused of stealing a watch from Mrs. J. F. Collins at Hartford. She had brooded over the matter and had ceased to take an interest in her studies. Miss Ford was last seen alive by former Sheriff Keown. She was sitting on the banks of the river, a favorite haunt among the students, and was writing letters. One was to her father, the other to her sweetheart. Miss Ford was a member of a prominent family and was highly respected.

## Marriages of Interest in Kentucky.

Mayfield, Ky., March 24.—Houston H. Adams and Miss Marie Sullivan were married Wednesday night in Tennessee. Mr. W. D. Sullivan, the well known farmer living several miles north of the city received a letter Friday from his daughter written from Memphis confirming the report of the marriage.

The couple left here Wednesday evening not on an elopement but to surprise their many friends.

The Imboden, Ark., Gazette of the 16th brings news of the marriage of Miss Alice Williams, daughter of Rev. W. H. Williams, of Clinton, to Mr. R. F. Kirkpatrick, a son of Dr. J. N. Kirkpatrick, a leading citizen of Imboden. The bride was out there visiting her brother, Rev. Herbert Williams. She was born and reared in Wingo and moved from there several years ago.

## COURTED OVER TELEPHONE

"Hello Girl" Married Convict and Will Live at Owensboro.

Jefferson City, Mo., March 24.—After a courtship of two years over the telephone, he in a convict's stripes in the state penitentiary and she "hello girl" in a telephone exchange, Melrose H. Barringer and Miss Victoria Korn, the latter of Jefferson City, were married, and left immediately for Owensboro, Ky., where they intend making their home. In 1902 Barringer was sent up for seven years for forgery, but secured two years off his term by good behavior. Two years ago he began conversing with Miss Korn over the telephone. They held daily conversations. Barringer fell in love with the girl's voice and she with his. He declared his love, proposed marriage when he should be released and was accepted. They saw each other first on February 17.

—Nine producing mines in the Bullfrog District only about 18 months old. No failures on Bonanza Mountain when property has been developed. Paducah Bullfrog will develop the White Rock on Bonanza Mountain. Buy stock now at 15 cents until April 1st, then buy at 17½ cents. It will prove profitable.

## SIMMONS' PARTNER

The Rev. Kelly Falls to Show Up at Peoria, Ill.

Peoria, Ill., March 24.—The Rev. Kelly, the preacher-banker, indicted for complicity with late Rev. George H. Simmons, formerly of Louisville, for unlawfully manipulating the funds of the People's Savings bank, cannot be found. Officers have been searching all day for him with the indictment, and tonight he has not been heard from. Kelly is supposed to have left the city several days ago for Wheaton, Ill., where he said he was going to visit friends. He told the sheriff on his departure that if an indictment was returned he would come back to Peoria.

No trace of him has been found at Wheaton. His house in Peoria is closed and the telephone has been removed. Neighbors say that Mrs. Kelly left the city several days ago.

## Fined, Although Absent.

The case of the commonwealth vs. George McCune, for alleged whiskey selling, was called in "Squire Robinson's court at Smithland and McCune was not present. Fines were assessed against him on four warrants, \$100 in each of the three charges and \$75 on the other.

Frankfort, Ky., March 24.—The court of appeals has reversed the Fayette circuit court in the case of Jas. Garfield Smith. Smith was sentenced to death for murder.

## WHAT HE WANTED

NASHVILLE POLICE HAVE TO SHOW THAT MURDER WAS THERE.

Are Trying to Prove That the Body Floated Down to Cairo, Ill., From That City.

It is understood that all Detective Irwin, of Nashville, was looking for in Paducah in connection with the Mangrum murder case, was a witness who is supposed to have seen the body floating out of the Cumberland river into the Ohio, up about Smithland. The woman's body, it will be recalled, was found at Cairo.

The Nashville police are up against a tough proposition. If Dr. Feist is tried in Nashville for murder, they will have to show that it was murder, and that it was committed within the jurisdiction of the Nashville court. It is not known whether or not the authorities will be able to prove that Mrs. Mangrum was murdered. If they have any evidence that she was, it has not been disclosed.

It must not only be shown that she was murdered, however, but also that she was murdered in or near Nashville.

The body was found at Cairo, Ill., in another state, and one of the hardest nuts the Nashville police have to crack is how to prove that the woman was murdered in Nashville. It is understood that detectives have been going along the river interviewing ferrymen and others who are alleged to have seen the body of a woman floating in the river about the time Mrs. Mangrum's was found, and hope in this way to trace the body back to the jurisdiction of the Tennessee courts.

Yesterday's Nashville Banner says: "Detective W. I. Irwin, who has been associated with Chief of Detectives Sidebottom and P. F. Dowd, in the investigation of the mysterious Mangrum murder case, returned last night from a trip, supposedly down the Cumberland river. Just what his mission was has not been made public; but it is said he went in order to find out additional facts concerning the murder. Officers are very reticent as to what was learned, but from their manner it seemed that his mission has not been unsuccessful, and that it will have much to do with unraveling the mystery of the case, especially as to where Mrs. Mangrum was murdered. The establishment of the corpus delicti has been an all-important question, and it is said that Mr. Irwin's trip will

## SO SIMPLE!

When you see a pair of TWENTIETH CENTURY EAR GUARDS you will wonder why somebody did not think of them before. When you have had a pair attached to your spectacles you will be surprised indeed at the comfort that they give you. DON'T YOU WEAR GLASSES? Well, hold something over one eye and read with the other; then try to read the same way with the other eye. If one eye is stronger than the other you need glasses to equalize them. ## When Women Suffer

It is a sign of dangerous weakness and disease. Pain is always unnatural, and if you are a victim of headache, backache, sideache, pain in arms, shoulders, legs, pelvis, or suffer from cramps, falling feelings, grinding pains, restlessness, the blues, etc., it is a sign that you need the gentle assistance which can be obtained by taking

## WINE OF CARDUI

Woman's Relief

"My back ached every month" writes Mrs. Francis J. Ashburn of Clarkrange, Tenn. "till I could scarcely stand on my feet. I had pain low down and headache—not a day without it—and awful pain in my right and left sides. I could hardly lie down, and could not sleep nights. Doctors tried, but failed to give me permanent relief. I began to take Cardui, which soon benefited me, and now I feel like a new person." Cardui is a purely vegetable remedy, for all female diseases. It acts gently and specifically upon the sick womanly organs, and by strengthening and fitting them to do their natural work, it has restored to health thousands of hopeless invalids. Try it.

## Let this Machine do your Washing Free.

These are motor springs beneath the tub. These springs do nearly all the hard work, when you start them going. And this washing machine works as easy as a bicycle wheel does. There are slots on the inside bottom of the tub. These slots act as paddles, to swing the water in the same direction you revolve the tub. You throw the soiled clothes into the tub first. Then you throw enough water over the clothes to fill them.

Next you put the heavy wooden cover on top of the clothes to anchor them, and to press them down. This cover has slots on its lower side to trip the clothes and hold them from turning around when the tub turns.

Now we are all ready for quick and easy washing. You grasp the upright handle on the side of the tub, with it you revolve the tub one-third way around, till it strikes a motor-spring.

This motor-spring throws the tub back till it strikes the other motor-spring, which in turn throws it back on the first motor-spring.

The machine must have a little help from you, at every spring, but the time and the trouble is so small, do practically all the hard work.

You can sit in a rocking chair and do all that the case requires of you. A child can run it easily all of the time.

When you revolve the tub the clothes don't move, but the water moves like a mill race through the clothes.

The paddles on the tub bottom drive the soapy water THROUGH and through the clothes at every swing of the tub. Back and forth, in and out of every fold, and through every mesh in the cloth, the hot soapy water runs like a torrent. This four times away all the dirt from the clothes, in from six to ten minutes by the clock.

And the dirt goes out through the meshes of the fabric WITHOUT ANY RUBBING, without any WRING and TALK from the washboard.

It will wash the finest lace fabric without breaking a thread, or a button, and it will wash a heavy, dirty carpet with equal ease and rapidity. Fifteen to twenty garments, on one large bed-sheet, can be washed at one time with this "100% Washer."

A child can do this in six to twelve minutes better than any tub washer—without doing the work clothes in TWICE the time, with three times the wear and tear from the washboard.

This is what we SAY, now how do we PROVE IT? We send you a suitable period our "100% Washer" free of charge, on a full month's trial, and we even pay the freight out of our own pockets.

No cash deposit is asked, no notes, no contract, no security.

You may use the washer four weeks at our expense. If you find it won't wash as many clothes in FORTY hours as you can wash by hand in EIGHT hours you send it back to the railway station,—that's all.

But, if from a month's actual use, you are convinced it saves HALF the time in washing, does the work better, and does it twice as easily as you can be done by hand, you keep the machine.

When you mail us \$5 cents a week till it is paid for. Remember that 50 cents is part of what the machine saves you every week on your own, or on a neighbor's, laundry labor. We intend that the "100% Washer" shall pay for itself and then cost you nothing.

You don't think a cent from first to last, and you don't pay it until you have had a full month's trial. Could you afford to pay freight on thousands of these machines every month, if we did not positively KNOW they would do all we claim for them?

Can you afford to take without a machine that will do your washing in HALF THE TIME, with half the wear and tear of the washboard, when you can have that machine for a month's free trial, and let it PAY FOR ITSELF? This offer will be withdrawn at any time if it overflows our factory.

Write us TODAY, while the offer is still open, and while you think of it. The postage stamp is all you risk. Write me personally on this offer, viz.: R. F. Groves, General Manager of "100% Washer Company," 375 Henry St., Brooklyn, New York, or 55 Yonge St., Toronto, Canada.

## The Week In Society.

### A LITTLE FARTHER ON.

Just a little farther on waits a wondrous April dawn,  
When the boughs will break in blossoms as a flag is lifted up,  
When the grass will rise and run with the laughter of the sun  
And the sky will seem to pour its wine from out a magic cup;  
And we'll sing because of knowing all the songs the wind is blowing,  
And the earth will be gladder for the dreary days ago.  
Then we'll catch the murmured words in the singing of the birds,  
When the earth has rolled to springtime—just a little farther on.

Shut your eyes and you may dream of the dandelion's gleam  
Where the careless hand of spring-time has been spilling all its gold  
While the meadow over night flings aside the wintry blight  
And its carpet smooth as velvet is by fairy hands unrolled.  
Then we'll know the tang and tingle of the blossom scents that mingle,  
And we'll taste the joys of living in the wondrous April dawn,  
For we're swinging to the wiles of the singing and the smiles,  
To the blessedness of springtime—just a little farther on.  
—W. D. Nesbit, in Chicago Tribune

### Announcements.

The Delphic club will meet Tuesday morning in the club room at the Carnegie library.  
The Matinee Musical club will hold its regular fortnightly meeting on Wednesday afternoon at the Eagle club house. Chopin is the composer and the leaders are Miss Alice Compton and Miss Jessie Nash.

Engagement of Miss Cox and Mr. Rudy Announced.  
Mr. and Mrs. William Armour

Gardner today announce the engagement and approaching marriage of their daughter, Miss Louise Elizabeth Cox, to Mr. James Henry Rudy. The wedding will take place at the Broadway Methodist church on Tuesday, April 24, at 9 o'clock in the evening. It will be a beautiful and elaborate ceremonial with all the charm of the springtime, the details of which will be given later.  
The announcement of this wedding is attended by more than the usual social interest, as Miss Cox and Mr. Rudy are not only widely popular, but their families are among the most prominent in Paducah, with a large connection throughout Western Kentucky.

Miss Cox is a debutante of two seasons, and is a typical southern girl of spirit and charm. Since her coming out she has held a leading place in all of Paducah's social life, and is a favorite in Memphis and various cities where she has visited. She is of a striking personality, vivid and graceful, with a vivaciousness of manner and cleverness of repartee very taking. She comes of a family noted for its handsome women.

Mr. Rudy is the eldest son of Mr. and Mrs. James A. Rudy, and is one of the leading young men of the city. Since leaving his Virginia alma mater he has held a responsible position in the Rudy-Phillips dry goods firm, giving an earnest attention to business that presages a coming "captain of industry." He is, also, very prominent socially, and has a host of friends in the city.

The wedding will be attended by a round of social functions that will make the Easter season more than usually gay.

### Coming Entertainment.

The Charity club and the High school have secured Miss Mannheim, of Cincinnati, to give a dramatic recital on Wednesday, April 4, for their joint benefit. It will be an entertainment that will appeal both to

the theatergoers and lecture patrons. In the evening at Temple Israel Miss Mannheim will give Zangwill's "Merely Mary Ann." The matinee will be at the High school auditorium and will be "Shakespeare's Heroines."

Miss Mannheim is director of the school of expression at the College of Drama in Cincinnati, and is said to be an artist of ability. She has achieved success in her Shakespearean recitals, and has refused a stage career for dramatic recitals.

### Entre Nous Club.

The Entre Nous club reorganized this week for informal entertainments during the Lenten season. The round of the club had been made, and as several of the members have withdrawn for Lent, the list had to be rearranged with a new schedule of club hostesses. The club will number ten members during Lent.

Miss May Owen will entertain the club the coming week. The day has not been set.

### Magazine Club.

Mrs. George C. Wallace, of North Ninth street, was the hostess of the Magazine club on Thursday afternoon. It was a very delightful meeting of the club, although somewhat limited in attendance owing to the Lenten season.

The response to roll-call was made with a quotation from Sir Walter Scott. Clever reports were made of several of the leading magazines of the month. Mrs. Frank Scott and Miss Helen Lowry gave some interesting features from the North American Review. Harper's Magazine was brightly discussed by Mrs. Robert Phillips and Mrs. Hal Corbett. Mrs. George Flournoy represented the Atlantic Monthly with topics of current interest.

A delightful course-luncheon was attractively served in conclusion of the afternoon's pleasure.

### A Break in the Lenten Quiet.

Society doffed her Lenten sack cloth and ashes for the Bispham recital on Wednesday evening, and presented a most brilliant appearance at the Kentucky theatre. The audience was a representative one and many charming costumes were in evidence in honor of so notable an occasion in the musical life of Paducah as the

coming of Miss Zudie Harris of Louisville and Mr. David Bispham to the city. All the boxes were occupied and this added to the brilliancy of the scene.

An informal reception was given in the parlors of the Palmer House after the recital by the Matinee Musical club, under whose auspices the gifted artists were brought to Paducah, which rounded up the evening most pleasantly. Miss Harris and Mr. Bispham, socially, made as delightful an impression as their unequalled art had earlier in the evening. Miss Harris has a distinctly charming personality and her promise to return to Paducah in concert, was a decided compliment to the audience she had captured by her playing. It is hoped that her stay then will be of sufficient length to admit of the social attentions that many were anxious to show the talented Kentucky woman, but which were crowded out by their limited time here.

### Paducahan Marries in Fulton.

A dispatch from Fulton, Ky., says: "G. H. Scott, of Paducah, and Miss Viola Henson, of Boaz, Ky., were united in marriage here Wednesday night at 12:30 o'clock. Esquire J. T. Futrell performing the ceremony. The young people spent the night in Fulton and left next day for Vine Grove Ky., where they will make their home. Several friends accompanied them to Fulton."

### Delphic Club.

The Delphic club met on Tuesday morning at the Carnegie library and discussed some interesting phases of French history.

"The Period of the Jacobins and Girondists" was reviewed very graphically by Miss Kathleen Whitefield. Mrs. Abner R. Meyers gave an interesting resume of the "Life and Death of Madame Roland."

### A Smithland Wedding.

The following wedding announcement will be of interest here, the bride-to-be being a sister of Mr. "Kit" Haynes, formerly of the Fowler boat store here. The Cairo Bulletin of today says:

The announcement of the marriage of Miss Anna Lake Haynes, daughter of the late John A. Haynes, to Dr. Lynn D. Adams, of Smithland, Ky., on April 3, although half suspected

by the young lady's many friends here, yet brings with it much surprise.

The wedding will be solemnized in the morning at the home of the bride's uncle at Smithland, when the couple will leave on their bridal tour.

The groom, a young physician and a member of the drug firm of LaRue & Adams, is most highly spoken of by all who know him. The bride is well known in Cairo, having resided here the greater part of her life, and is one of Cairo's most charming and attractive young ladies.

### Social Affair.

The Church Furnishing Society of the First Christian church will have an "open meeting" on Monday afternoon at 3:30 o'clock at the home of Mrs. Samuel Sugars, 502 North Seventh street, in honor of the Ladies' Aid Auxiliary. An attractive program will be rendered as follows: Vocal solo . . . "Sing Me to Sleep"

Mrs. Taylor Fisher.  
Recitation . . . "How Rube Played"

Mrs. Henry H. Duly.  
Piano solo . . . "Selected"  
Miss Lucille Lamb of Paris, Tenn.  
Vocal solo . . . "Lonesome" from  
"Isle of Bong Bong"

Miss Ethel Brooks.  
Trio . . . "Selected"  
Miss Mary Bondurant, Clark and Robert Bondurant.

### Birthday Party.

Miss Vera Smith entertained a few friends with a birthday party Friday night. Music and games were the features of the evening. Dainty refreshments were served. Those present were: Misses Lucile Dossett, Alpa Adams, Lillian Maynard, Ola Dossett, Vera Smith. Messrs. Keener Rudolph, Scott Murphy, Henry Cummins, Albert Hansen.

### About People.

Miss Anita Wood, of Wichita, Kan., is the guest of Miss Ethel Brooks, on North Seventh street. Miss Wood has visited in the city on several occasions as the guest of Miss Susie Thompson and Miss Brooks, and has won many friends here.

Miss Lucille Lamb, of Paris, Tenn., is the guest this week of Mrs. Joseph Gardner and Mrs. Harry McElwee, on Clark street. Miss Lamb is a talented musician and came to

attend the Bispham recital. She is a social favorite in Paducah, where she has often visited.

Mrs. Eleanor Hopper Mrs. Cleland White and Mrs. George Smith, of Cadiz, Ky., are the guests of Mrs. Mary Burnett, of West Broadway. Mrs. Hopper and Mrs. White are sisters of Mrs. Burnett and Mrs. Smith was formerly Miss Lucie White, of Cadiz, who has visited here before.

Miss Clara Anna Voelkel has returned after a pleasant visit to Mr. and Mrs. Wm. Voelkel, of New Orleans, La., where she attended the Mardi Gras festivities.

### GOT GOOD PROMOTION.

Mr. William M. Grassham, brother of Attorney C. C. Grassham, of Paducah, was promoted last week by the Ayer & Lord Tie company from assistant foreman in this territory to

foreman of a territory with headquarters at Waverly Tenn. Mr. Grassham has made the company a faithful man while here, and he gets this better place as a reward for his good work here. The good wishes of many friends follow him to his new place.—Smithland Banner.

## Daily Thought.

"What we call Death is but the passing from life to life."

Wickliffe seems to feel aggrieved because the Paducah and Mayfield papers have not paid much attention to the fact that another railroad is to touch Wickliffe. Certainly the papers are guilty of an unpardonable oversight, for the prospective event is undoubtedly most remarkable, and worth a "top head." And Wickliffe thus explains the silence of outside papers:

"These places are striving to become important points, and while business men of means are pushing each place forward, they seem to have posted their newspapers to let other places take care of themselves, hence, Wickliffe has never been mentioned by either place, and it can be readily seen by disinterested parties that the reason for this is fear, and well may they have a right to fear."

We sincerely apologize. Next time Wickliffe gets a new railroad, which we hope will be soon, we shall devote a column to it in order to let the outside world know that Wickliffe is still on the map.

Listen to this, from our metropolitan and rapidly growing sister city, Mayfield—from the Mayfield Mirror: "We advise the Commercial club of Paducah to mandamus the I. C. to get out an order restraining the I. C. from spanning the gap from the Tennessee into Mayfield. And do the same thing as to the L. & N.—the doing of one is as reasonable as the other. What's the matter with Paducah? It is not in the right place on the map; that's all in the world. Mayfield is. It is not pleasant music the cry of a child, over split milk. Hush! Little one. A coterie of French capitalists are to establish a frog farm on the outskirts of Paducah as soon as things get quiet; and the British have heard that a mushroom garden there would pay good dividends. They dearly love a place that is 'sowed up.'"

The Mayfield Monitor announces that Mayfield is to have a "natatory." Mayfield is truly on the boom, and is always getting something new. Now most places would have simply established a natatorium and stopped. But of course Mayfield has to do something unique, and establish a "natatory."

Forty Years a Drummer.  
Norfolk, Neb., March 24.—Otto Appert, the oldest traveling salesman of the Standard Oil company in America, committed suicide with carbolic acid in the Elks lodge room. He was with the Standard 40 years. No reason for his act is known.

Paducah Bullfrog company offers a fair and square deal, stock being sold for the purpose of developing valuable mining properties, 15 cents per share until April 1.

## SAVED BY RAIN

SLEET WAS VERY HEAVY AND THICK FOR A TIME.

Rise in Temperature and Heavy Rain Prevented Much Damage.

Paducah was saved from a repetition of "White Week" yesterday only by a rise in temperature and a heavy rain, which melted and washed away much of the ice which had accumulated on wires and trees all day yesterday, and menaced every line in the city.

A number of the smaller wires broke late in the afternoon and at night, and if the rain had not come when it did, a great deal of damage would no doubt have resulted, as the wires were being weighted down more and more every hour when relief came. The damage done was slight.

The total rainfall was 2.40 inches, which is a good volume for the length of time.

## Communication Interrupted.

A broken limb of a tree across the wires at Stiles cut off communication with Louisville for the Postal Telegraph company last night, but this is the only damage to that company's wires. Everything seems to be working all right this morning.

## Heating Company Had Trouble.

The steam heating company had to cut off a good deal of its service during the night, and there were a number of cold houses this morning. The water under many of the stores down town followed the heating pipe lines and flooded the manholes, and the service had to be cut off while the water was pumped out.

## Damage in Cairo.

Passengers on the Cairo accommodation trains say that the sleet storm seems to have been heaviest west of here, and Cairo was affected worse than Paducah. In Cairo large trees were broken, wires grounded and damage done in other ways. The I. C. wires along the tracks were grounded by falling tree limbs and no communication with Cairo by wire could be had by the I. C. last night or this morning.

## A Bankruptcy Writ.

Referee in Bankruptcy E. W. Bagby has issued a writ of possession, directing M. G. Warren of Marshall county, to turn over to Dr. Wyatt, the farm land the latter bought through the court from the Warren estate.

Warren is the man convicted in the United States court here two years ago of passing counterfeit money. He was sent to the federal prison at Atlanta, Ga., but before departing filed a petition in bankruptcy. He has now served out his time and returned. In winding up his business through the bankrupt court his place was sold but he refuses to vacate to Dr. Wyatt, who bought the place, and the latter got the court to issue the writ.

## Underwood Case Reversed.

The court of appeals yesterday reversed the McCracken circuit court in the case of Underwood, Admr., against the Illinois Central. Pink Underwood was a fireman on the I. C. who died from injuries received in a wreck down about Wingo. The case was transferred to federal court by former Circuit Judge Husbands, and an appeal was taken, and the court of appeals yesterday reversed, meaning that the case will now have to be tried in federal court. Hendrick Miller and Marble represent the Underwood estate.

## WANT AND NEED.

There's a big difference between what a baby wants and what he needs. Deny him the one, give him the other. Most babies need Scott's Emulsion—it's the right thing for a baby. It contains a lot of strength-building qualities that their food may not contain. After a while they get to want it. Why? Because it makes them comfortable. Those dimples and round cheeks mean health and ease. Scott's Emulsion makes children easy; keeps them so, too.

## IN TROUBLE AGAIN.

Franklin P. Koontz is Under Arrest At Nashville, Tenn., Nov.

The following from the Nashville Banner will recall to the Paducah police a character quite unique in the criminal history of Paducah:

"Franklin P. Koontz, colored, was placed under arrest yesterday by Deputy United States Marshal J. M. Duggan and Private Detective R. S. Corbett. For the past three days the officers had been watching and every person entering the postoffice was given close attention. Koontz was arrested at the instance of government officials at Milwaukee, who claim that he has been impersonating a postoffice inspector. Koontz, who resembles a white man very closely, protested against his arrest, but, nevertheless, he will be taken back to Milwaukee to stand trial."

The same man came to Paducah several years ago and impersonated a government officer. He was arrested and his grip was found to be filled with blank checks and checks made out with fictitious names. He served a term or two in prison, it is understood, but would always bob up here unexpectedly and get in trouble again. He never changed his name, and as indicated by the Nashville paper, is still known by the name he had while in trouble here. It is the general belief among local officers that Koontz is crazy. When first arrested here he wanted President McKinley telegraphed, claiming that he was a government officer and would be vindicated.

## FOOT CUT OFF.

Colored Man From Mississippi Meets With Accident at Fulton.

William Wall, colored, aged 27, in attempting to board a rapidly moving passenger train at Fulton, fell beneath the wheels. The right foot was ground off; the left foot was badly mangled, but the physicians hope to save it.

Wall's home is at Holly Springs, Miss., where his mother and brother reside. He had received a permit to learn the road as porter on passenger trains running over the Cairo district.

Wall says he ran into a switch stand, fell and rolled over, causing his feet to go beneath the wheels. As soon as the weather permits he will be taken to his home in Holly Springs, Miss.

## Called Meeting of Aldermen.

The board of aldermen held a special meeting yesterday afternoon. The ordinance fixing the rate at \$1.65 for this year was given final adoption, and second passage was given the ordinance ordering that Nineteenth street be graded and gravelled from Washington street to Guthrie avenue, and then along the latter avenue to the Mayfield road. The Paducah Traveling Men's Carnival Association was granted the concessions usually given for their entertainment next September.

Burnside, 5.2, .6; falling.

The river rose 1.7 last night, the gauge today registering 27.3 feet. A big stage of water is looked for by local river men. "I expect to see the river about 35 feet here," said one this morning. "A good deal, in fact all, though, depends on the rain above us."

The Dick Fowler got away on time for Cairo this morning.

The Georgia Lee passed down for Memphis from Cincinnati this morning.

The Peters Lee arrived at 3 this afternoon from Memphis for Cincinnati.

The Saltville left St. Louis last night for the Tennessee river.

The Kentucky leaves this afternoon for the Tennessee river.

The Nellie Willett left for the Tennessee river.

The Duffy left today for the Tennessee river.

The Russell Myrtle is preparing to go up the Tennessee for a tow of ties. This will be her first trip of the season.

The little towboat Vivian has been rebuilt and is now named Saline Marmet.

The Monongahela River Consolidated Coal and Coke company has started South the Sam Clark and Boaz with eight loaded barges of steel rails and other metal products. A few barges of coal were attached to the steamers.

"What became of the Atlantic?" asks one man. The hull of the Atlantic was used as a wharfloat at New Albany for some years. The ice in the river a few winters ago tore her away from the wharf at New Albany and she drifted to the Kentucky shore at Fountain Ferry Park and turned bottom up, where it has remained ever since. It can be seen in low water.—Courier-Journal.

Capt. Ludwig Kefer, an old river man, died at his late residence in Pittsburg, Monday. He was the owner of the Dakota and the Lud Kefer. After retiring from the river he was a tenement inspector.

Capt. Charles Powers, who died in Chicago last November and was buried in New Albany, Ind., last Monday, was born in Charlestown, Ind., and came to this city when he was a boy. He went as knife scourer on the single engine Madison packet Swiftsure. He put in his spare time in the pilot house and became a regular pilot on the boats and a good one. He became pilot on boats in the Kentucky river trade, also on boats in the Green, Cumberland and Tennessee river trades, and was one of the best and most popular pilots on the Ohio and its tributaries of his time. He finally became pilot and captain on Ohio river boats, then owned several fine boats previous to the late war. During the war he was in charge of federal gunboats and rendered valuable service at the battle of Fort Donaldson and Fort Henry. Gen. Grant praised him on more than one occasion for his bravery and efficient service. He and Capt. Charles Williams, of the Levi J. Workum, were companions, and both worked the river as pilots about the same time on the fast and fine boats of the Cincinnati Mail Line. Capt. Powers retired from active service after the close of the war. He was well known in this city.—Courier-Journal.

Employees of the American Express Co. and others about the union depot this morning were treated to a regular cock fight, but the ring was small and the birds really in no position to do much good fighting. They showed they were game, however, and the two might have fought until dead if the runner for the express company had not stopped them by placing them apart where they could not get to each other.

A coop of chickens, about two feet high, four feet wide and five feet long was sent here from Attica, O., to R. E. Jones, proprietor of The Pines poultry farm. Two roosters were among the lot and when the train arrived this morning from Louisville and the coop was taken inside the express room, the cocks got together and began to fight. They fought hard until the wagon drivers got in and aroused the messenger, who sleeps in the room.

The coop had no division and no sooner would the express men separate the birds, shoving one in one end, and the other in the other end, than they would come back and mix again. Finally a temporary partition was inserted and the bloody fowls were separated. They were doubtless consigned to the poultry farm hospital when they got there.

## THE PADUCAH BULLFROG GOLD MINING COMPANY.

Organized Under the Laws of the Territory of Arizona.

CAPITAL STOCK \$1,000,000.

Par Value \$1.00 Each

Full Paid and Non-Assessable

Mines at Bull Frog, Nye County, Nevada.

To the Public:

At a meeting of the Board of Directors of the Company, held March 7, it was decided to advance the price of STOCK from FIFTEEN CENTS to SEVENTEEN AND ONE-HALF CENTS per Share on the first of April. The above action by the Directors in their judgment is warranted for the following reasons:

FIRST—The property owned by the Company, EIGHT Claims—about 110 Acres—was secured last December, and since which time all property in the district has increased in value from 25 to 150 PER CENT owing to the development done in the district.

SECOND—The WHITE ROCK Claim on Bonanza Mountain being practically surrounded by producing mines, and the development work now being pushed on the Rush group, Peerless, Index and others, has demonstrated that the WHITE ROCK is as good property as any of them, and the additional fact of the strike just made on the Rush group, which adjoins the WHITE ROCK, proving that we can and will develop a good mine.

THIRD—The "Last Chance," adjoining the WHITE ROCK, has just been bought by Edwin Arkell, a prominent mining man of Colorado Springs, for \$50,000.00, thereby proving our property worth as much.

FOURTH—In the past 60 days the value of ten Bullfrog Stocks has advanced over THREE MILLION DOLLARS, the notable ones being the Denver, Eclipse and Montgomery Shoshone. The property of our Company (see prospectus) is most favorably located to them.

FIFTH—The Railroad will be completed by June 1st, which will further enhance the holdings of the Company as well as all other property in the BULLFROG DISTRICT.

We offer the best proposition that is on the market today, and can with confidence urge the purchase of the stock. Firmly believing we will develop a good mine and that an investment in our stock will prove profitable we ask you to join us before the advance takes effect.

Yours truly,

PADUCAH BULLFROG GOLD MINING CO.

## A MAYFIELD MAN

Becomes Principal Witness in Murder Case Under Unusual Circumstances.

Mayfield, Ky., March 24.—Foster Adams has gone to Pensacola, Florida, as a witness in a murder trial.

Mr. Adams while traveling for the Old Woolen Mills, of Mayfield, was at Milton, Florida, 20 miles from Pensacola, on December 8. Two hack drivers got in a dispute over who should carry Mr. Adams' baggage and as a result George Allen shot and killed Eubian Whitmore. Mr. Adams being an important witness was required to give bond for his appearance.

One hundred and fifty dollars was set aside by the court to defray his expenses.

## Although a Kentuckian Only a Few Days New Manager of the Palmer is "Colonel"

Mr. Frank S. Murphy, manager of the Palmer House, is now "Colonel" Frank S. Murphy. He came to Paducah Tuesday to assume the management of the Palmer, under the new ownership, and his Chicago friends are addressing his mail to "Colonel" Frank S. Murphy.

"I am a Kentuckian now," said Col. Murphy, today, "and am of course proud to have the title bestowed on me so soon."

Col. Murphy is a busy man these days, every few minutes having to interview house decorators, carpenters, contractors and the like. He says the people of Paducah are expecting him to do something with the hotel, and he has to make a display of energy.

Starting next Sunday he will have a table d'hôte dinner at 6 o'clock, which will be a feature of every Sunday, and the first of June, by which time many of the improvements will have been made in the hotel, it will be conducted on the American and European plan.

—\$300 buys 2,000 shares, \$150 buys 1,000 shares, \$75 buys 500, \$30 buys 200 shares, \$15 buys 100 shares in Paducah Bullfrog Co., until April 1, when stock is advanced. Don't delay. Don't miss the chance for a good investment.

## Surprising Values in New Wearables

THROUGH exceptional good fortune in our wholesale buying we are enabled to offer you values this spring that are without precedent in the history of Paducah retailing. Messrs. Richard Rudy and H. R. Lindsey returned this morning from their trip to Mexico, and were very much surprised at the weather they found upon their arrival home. They left a land of flowers and vegetation, and Mr. Rudy sent his overcoat home by Mr. Gus Thompson, who returned a day sooner than the others but was afterwards sorry he did, for he needed it before he reached Paducah.  
Mrs. Gaither Henneberger, of Louisville, is visiting relatives in the city.  
Miss Fannie Howell, of the South Side, is very ill.

### IMPROVEMENTS IN LYON.

The I. C. May Use One Depot for the Two Towns.

The Lyon County Times, of Eddyville, says of improvements there: It is currently reported that the I. C. R. R. will consolidate the two depots of Eddyville and Kuttawa at some central point and abandon the old ones. This will be a great disadvantage to both towns and the people generally oppose such a change.

The Kuttawa Water and Light company will soon put in electric lights in our town. Capt. Stone has the management of the company and he has practically made arrangements to install lights throughout the town. The street lights will be erected on all the most used streets and most of the residences will be furnished at an early date. This will be a step in the right direction and we hope to see the plant put in operation as soon as it can be done. The power house will be erected near the tobacco stemmery and pumping station will be moved to the same location.

### Actress Loses Valuables.

A young actress who was a member of the Eva Tanguay Sambo Girl company, which played here recently, in her haste to catch the Paducah train, left a valuable skirt in her room at the Blue Front. Fastened to the waistband of the skirt was a small bag or pocketbook containing some valuable rings and about \$15 in money. She missed the garment at Paducah and telegraphed back for it. A search was made and the missing articles have not been found. Chief Egan and his officers are working on the case. Several parties have been arrested on suspicion, but so far the rings and money cannot be found.—Cairo Citizen.

### All Members Invited.

At 10th St. Christian church. Sunday school 9:30 a. m. A very full attendance desired. Some special work to be inaugurated. Church services at 11 o'clock. Every member of the church urged to attend for conference concerning the meeting to be commenced soon and other important matters. If you are interested be there. Friends invited. Further announcements made at the morning service.

### Broadway Methodist.

Rev. T. J. Newell, of the Broadway Methodist church will tomorrow morning preach on "Christ in the Transfiguration" and will also occupy his pulpit in the evening. Rev. J. B. Culpepper of Iuka, Miss., can not arrive here until next Thursday to assist with the protracted meeting, and it will be announced tomorrow evening whether the services will begin before then or not.

### Both are Improving.

Messrs. John Rhea and Chris Edmonds, who were scalded in an engine at the I. C. Round house two days ago, are better at the I. C. hospital and it is now not thought Rhea's injuries are fatal. They are resting easy today.

## IMMENSE FACTORY

PADUCAH TRYING TO LAND A BIG SHOE CONCERN OF ST. LOUIS.

Commercial Club Authorizes the Offer of Building and Site.

Paducah is making an effort to secure the location of a big shoe factory.

Secretary Coons of the Commercial club, while in St. Louis this week learned that one of the largest shoe companies in that city was seeking a location for a plant to employ from 450 to 500 hands at present, and which would eventually employ 1,200, and he immediately got in touch with the people.

He returned today and laid the matter before the Commercial club at a meeting this afternoon and was authorized to go to St. Louis tonight and offer the company a suitable building and site, not to exceed in cost \$20,000.

It is not known whether Paducah stands much of a chance to secure the factory or not. The official of the company who has the matter of locating the factory in charge was absent from St. Louis and Mr. Coons did not get to see him. He was then off investigating a proposed site, but from another official of the company Mr. Coons secured his information with the result that Paducah is bidding for the factory, which if secured, will be the biggest industry in the city in a very few years.

### Child Died From Natural Causes.

Coroner Frank Eaker was called to the residence of Bill Davis, colored, on Monroe street, this morning, to examine a case which promised interesting developments. The infant daughter of Davis had died and from indications death had come several days ago, the body already being in state of decomposition. Dr. J. D. Robertson was taken to the house to make an examination to see if there was any foul play, but failed to find any evidence of it. After an investigation the coroner decided that the child died from natural causes and this afternoon will bury it in the county cemetery. Davis stated that the reason he had not called in an undertaker was because he was financially embarrassed and did not know how to proceed.

### Three Trains Collide.

Goshen, Ind., March 24.—Three men were injured when three freight trains collided near here. Three engines and 25 cars were wrecked. The second section of a live stock train ran into the first section and another train ran into the wreck.

### Wanted No Alimony.

San Francisco, March 24.—Superior Judge Graham granted a divorce to Mrs. Henry E. Huntington on the ground of desertion. No request for alimony was made and the attorneys refuse to state whether or not there was any money settlement.

### Former Mayor Ashbridge Dead.

Philadelphia, March 24.—Former Mayor Samuel H. Ashbridge died this morning from Bright's disease. Ashbridge was the last of the famous Quay Republican politicians as mayor of Philadelphia. He was a ruler whose word was above law.

### Senate Passes Rectifiers' Bill.

Frankfort, March 24.—The senate by a vote of 19 to 17, adopted the bill, after amendment, to fix the tax on rectified spirits at 1 cent per gallon. The senate presented Thorne with a silver tea set.

Mr. and Mrs. Shumake and daughter, of Otonville, Minn., who have been the guests of Mrs. S. W. Katterjohn of 11th street, have gone to Henderson and Owensboro, to visit relatives before returning home.

## IN THE COURTS

### Didn't Disturb Neighbors.

In yesterday's police court the record did not show that in the case in which Mrs. Maggie Poyner was charged with a breach of the peace and dismissed, that Mrs. Augusta Mitchell was also placed under a bond, both to keep the peace towards each other. They were not charged with disturbing their neighbors.

### Took Prisoner Back.

T. L. Horton and C. L. Stubbs have returned to Blodgett, Mo., with W. G. Jones, white, who is alleged to have forged an order for \$12 on Stubbs. The trio left last night at 7 o'clock via Cairo, Jones agreeing to return without a requisition.

### Justice Bleich's Court.

Justice John J. Bleich will convene his court Monday. He has about 50 cases on his docket.

### Suit for Divorce.

Monroe Nelson has filed suit for divorce against Florence Nelson alleging abandonment. They were married in May, 1901 and separated in October, 1901.

### Police Court.

L. Buford, a stranger, was arraigned in police court today for amusing himself on West Kentucky avenue last night by breaking out the glass door at the Fannie Wilson resort. He was fined \$10 and costs. Lon Belt was fined \$30 and costs in police court this morning but the fine was suspended and the defendant recognized for his good behavior for a period of twelve months towards his wife. He was charged with abusing his wife.

The case against George Farrell, white, charged with a breach of the peace, was continued until March 26. Katie Beasley, colored was fined \$10 and costs for drunkenness.

The case against Edgar Reed, colored, charged with robbery, was dismissed and the defendant fined \$10 and costs for a breach of the peace.

### Few Umbrella Thefts.

Notwithstanding the weather, there were few umbrella thefts reported to the police this morning. Only one theft was reported to the city hall, this by Mrs. Gaither of 430 Adams street. Some one took her rain stick from the front porch during the early evening.

### Not the Circuit Court.

The dispatches sent out of Frankfort day before yesterday in regard to the Paducah cow ordinance decision of the appellate court, erroneously stated that the decision reversed the "McCracken circuit court." The cow ordinance test did not come before the circuit court, but was taken direct from police court to the court of appeals, hence in justice to Circuit Judge W. M. Reed this explanation is made.

### City Sued for Damages.

Rudolph Streit has filed suit in circuit court against the city of Paducah for \$300 damages to his property in Mechanicsburg because of defective drainage which caused water to back up on his property.

### Sending Out Pictures.

Chief of Police James Collins is sending out pictures of Albert Shumate, the Graves county man supposed to have had a fight with Billy Augustus a few weeks ago in the I. C. yards here, resulting in the death of the latter. By means of the picture the chief hopes to land his man.

### Seventy-five Days for Petty Larceny.

Bud Ballinger, colored, was this morning sentenced to two and a half months' confinement in the county jail for petty larceny. Ballinger was sent by a negro woman to secure \$1.25 which was due her for work done. The money was given the boy and he failed to turn it over to the rightful owner. The woman had him warranted in the police court and he was held over to County Judge Lightfoot, who tried him this morning. The prisoner pleaded guilty.

### Transferred to Lockup.

Henry Sanford, colored and Brady Murdock, white, who have just finished serving 10 days' jail sentences for carrying concealed weapons, were taken to the city hall this morning to begin serving out their city jail sentences of 40 days. Sanford "toted" a pistol and Murdock brass knucks.

### Died At Jackson, Tenn.

## ALWAYS TAKE MOTHER'S ADVICE.

Mother's Medicine Chest.

When we look back to childhood and think of what mother advised, we feel pretty certain that she advised what was right from her own experience. She inherited in her instinct of motherhood a knowledge of childish ailments and a certain class of remedies that she knew well and their effects. Experience after all is the best teacher. Most mothers know as well as doctors and often better, what ails a young girl on the threshold of womanhood and what she needs. For nearly forty years many mothers have recommended to ailing girls a prescription made from well-known native medicinal plants. Lady's Slipper root, Golden Seal root, Black Cohosh root, Unicorn root, Blue Cohosh root and chemically pure glycerine make one of the best prescriptions for the periodical troubles and ailments which visit womanhood at one time or another.

Prof. F. Ellingwood, M. D., of Bennett Medical College, says of "A Specific for Women": "It exercises special influence upon nervous conditions, depending upon disorders of the female organs—relieves pain, restlessness and nervousness." Prof. Jno. M. Scudder, M. D., says of the same root, "It is valuable in all cases of nervous excitability or irritability." Of Golden Seal root, Edwin M. Hale, M. D., Professor of Materia Medica at Hahnemann Medical College, Chicago, says: "In its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as a tonic useful in all debilitated states." Prof. F. Ellingwood, M. D., author of "A Treatise on Materia Medica and Therapeutics," says of Golden Seal root: "It is an important remedy in disorders of the womb." Of Black Cohosh root, Prof. Jno. M. King, M. D., author of "Women and Her Diseases," says: "Upon the reproductive organs, it exerts a specific influence, promoting regularity. In dysmenorrhea (painful periods), it is surpassed by no other drug, being of the greatest utility in irritative and congestive conditions, for dragging pains resembling the pains of rheumatism and for aching of the Unicorn root the American Dispensatory says: "It is one of our most valuable agents, acting as a uterine tonic, and gradually removing abnormal conditions, while at the same time it imparts tone and vigor to the reproductive organs, hence it is much used in leucorrhoea, amenorrhoea (suppressed periods), dysmenorrhoea (painful periods), etc."

Dr. John Fyfe, Editor of the "Eclectic Medical Review," says of Unicorn root (Helonias Dioica), one of the chief ingredients of Dr. Pierce's Favorite Prescription: "A remedy which invariably acts as a uterine invigorator and always favors a condition which makes for normal activity of the entire reproductive system, cannot fail to be of great usefulness and of the utmost importance to the general practitioner of medicine. In Helonias we have a medicament which more fully answers the above purposes than any other drug with which we are acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent."

will aid much in bringing about a normal condition of the structures involved. In sterility and impotence its curative power is unmistakable, and within a reasonable time it will restore to health full activity all cases not dependent upon organic wrongs, and in leucorrhoea and defective menstruation it is a frequently needed remedy."

The following are among the leading indications for Helonias: "Pain or aching in the back, with leucorrhoea; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhoea (suppressed menstruation) arising from, or accompanying an abnormal condition of the digestive organs and an anemic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading and pre-eminent ingredients of which is Unicorn root, or Helonias, associated with other equally efficient medicinal extracts from native roots.

From the above extracts it will be understood why Doctor Pierce is so successful in curing diseases peculiar to women with a carefully prepared glycerine extract of the above mentioned roots. In fact, the Unicorn root, or Black Cohosh, is a compound being called Dr. Pierce's Favorite Prescription. As a solvent and preservative, glycerine is superior to alcohol and is entirely unobjectionable. The "Favorite Prescription" is the only medicine put up for sale through druggists for the cure of women's peculiar ailments that does not contain alcohol and that too in large quantities. It is also the only non-secret medicine for women sold by druggists. Its ingredients are printed in full on the bottle wrapper and in plain English.

## SECOND CLASS CITY MEASURES SIGNED

Among Them is Bill to Enable Mayor to Appoint City Solicitor.

Another Is in Regard to Sewer Construction, Streets and Alleys, and Circuit Judge.

ONE SMALL BILL WAS VETOED.

Frankfort, Ky., March 24.—Gov. Beckham took action on fifteen more legislative measures, approving and signing fourteen of them and vetoing one. He also approved one resolution. The Racing commission bill and the Legislative districting measure are among those set aside to become laws without approval.

The bill vetoed is also of little importance. It is Senate bill 85, offered by Senator W. H. Cox, of Mayfield, proposing in its title to better prevent fraud in real estate transactions. In the opinion of the governor the act would have a contrary effect, and it is for this reason that he prevents its being placed upon the statute books.

The bills signed are: Chapter 123—House bill No. 358, authorizing appointment of not less than thirty policemen in cities of the second class. Intended for the benefit of the city of Paducah.

Chapter 124—Senate bill No. 137 appropriating \$54,000 for two state penitentiaries; new hospitals, dust collectors and improved workshops are provided for.

Chapter 125—Senate bill No. 226, authorizing the mayor of second class cities to fill by appointment the office of city solicitor, instead of his being elected.

Chapter 126—Senate bill No. 215, authorizing counties containing cities of the second class to supplement the salary of the circuit judge. Is for the benefit of Paducah.

Chapter 127—Senate bill No. 281, regulating the time and terms of court in Nineteenth, Twentieth and Thirty-second judicial districts.

Chapter 128—House bill No. 48, giving city council of second class cities complete control in matter of constructing streets and sidewalks.

Chapter 129—House bill No. 44, authorizing construction of sewers in cities of the second class at cost of abutting property owners.

Chapter 130—House bill No. 345, giving city council of second class cities control of all streets, alleys, sidewalks, wharves in such cities in matter of improvements.

Chapter 131—Senate bill No. 272, ratifying charters heretofore made of articles of consolidation of corporations.

Chapter 132—House bill No. 125, appropriating \$20,000 for the state institution for Feeble-Minded Children. To be used to build electric plant and laundry.

## THE VALUE OF CHARCOAL.

Few People Know How Useful It Is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system. Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh. All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

Chapter 133—Senate bill No. 261, authorizing city council in cities of fifth class to appoint a policeman in addition to the marshal.

Chapter 134—House bill No. 228, regulating fees for milling; limiting charge to one-seventh.

Chapter 135—House bill No. 70, authorizing assessors of cities of the second class to begin work on September 1 of each year instead of September 15.

Chapter 136—Senate bill No. 55, to reimburse the Kentucky Title Company of Louisville, for money paid into the state treasury as taxes under the old Jewett law.

The resolution approved by the governor provides for the appointment of a legislative commission to revise the public printing laws of the commonwealth and submit to the general assembly of 1908 a new printing law.

The governor has vetoed house resolution No. 21, authorizing the appointment of a commission to revise the insurance laws and make recommendations. In vetoing the resolution Gov. Beckham states that he was guided by the advice of the insurance department, which he presents with his veto, in which the insurance commissioner holds that the proposed commission could do no good at the present time, though it might be feasible by the time the next legislature meets.

The governor vetoed a bill relating to proclamations of the governor of rewards for fugitives.

The bill placing the fees of the chancery commissioners on a salary basis was approved by the governor.

It seems the only rational remedy for coughs and colds would be to move the bowels and clean the mucous membranes of the throat and lungs at the same time. Kennedy's Laxative Honey and Tar does this. Former Mayfield Man Dies. Mayfield, Ky., March 24.—Mr. Dan Reaves, brother of T. D. Reaves, and well known to the people of Mayfield and Graves county, died very suddenly Wednesday, March 21st, at 1 o'clock p. m. at his home in Ft. Smith, Ark. He left a wife and two daughters and was about 50 years old.

## A STRIKE CERTAIN IT IS PREDICTED

Conference of Kentucky Operators and Miners Wednesday.

Should the Expected Strike Come It Will Affect Only West Kentucky Coal Mines.

PESSIMISTIC VIEW IS TAKEN.

Louisville, Ky., March 24.—That there will be no settlement of the differences between the coal miners and operators in the present controversy over wage scales, and that a strike is imminent, is the opinion of prominent operators who arrived in Louisville yesterday from the Indianapolis meeting. A joint conference of the Kentucky operators and miners will be held in Louisville next week.

Unless the Indianapolis conference accomplishes a settlement of the controversy, it is declared by operators and miners that nothing will come of the Kentucky conference. The Indianapolis conference affects the mines in Illinois, Indiana, Ohio and Pennsylvania, and although Kentucky is not associated with the conference, the decision of the operators and miners will govern the decision to be reached by the owners and workers in Kentucky.

Should the general strike be declared, only the mines in Western Kentucky will be affected. The majority of the mines in Eastern Kentucky are governed by a contract, which is operative until next August.

According to the last reports received by the Louisville men, a proposition was made by the miners to the operators to adopt the scale of 1903. This scale is about four and one-half cents higher than the present scale of prices. The proposition has been refused, it is said, on account of other contingencies, relating to hours, blasting and labor quiet. The most important issue which has arisen, and one which has kept the miners and operators apart, has been the blasting regulations.

According to the 1903 scale, which the miners wished to have adopted, the operators stood the expense of blasting. This, it is claimed, amounts to between four and five cents a ton. The difference between the two bodies at present amounts to about that figure, which, appearing relatively small to the uninterested party, is said to be a large difference, and one not easy to overcome.

The call for the joint meeting of the Kentucky miners and operators of the western portion of the state will be issued within the next day or so. According to the contract between the miners and operators now in existence, the joint conference to fix the wage scale must be held before April 1 when the contract expires.

Chances for an amicable agreement between the miners and operators, the operators say, are very slim, and a few are positive in their declaration that no settlement will be reached and that the threatened strike is sure to come.

Farmer Becomes Insane. Elitsha Wilson, of the Farmer neighborhood, who went insane and also on the rampage yesterday, is at it again. Sheriff Edwards had hardly got to town before he was telephoned that Wilson was engaged in the seemingly needless pastime of cutting down telephone poles. The sheriff decided not to take the man into custody without an order of county court. Judge Wells is at Benton.—Murray Ledger.

If you have used Witch Hazel Salve without being relieved it is probable that you got hold of one of the many worthless counterfeits that are sold on the reputation of the genuine DeWitt's Witch Hazel Salve. Sold by Lang Bros.

## FIRST FIND THE CAUSE

Half the work the blood has to do is to carry nourishment to the system. The other half is to carry waste matter to the kidneys, which expel it from the system. When the blood gets weak or sluggish, the first effect is an accumulation of waste matter. The danger of this waste matter is here explained.

## HOW BLOOD AFFECTS HEALTH

Blood is our life force. Every particle of our body is built, rebuilt and sustained by blood.

More than this, every bit of waste in the body must be washed out through the kidneys by the blood. This red life blood is constantly bringing new life force and carrying away waste matter.

When the blood loses any of this waste, fails to get it out of the body, disease begins. If the poisonous waste accumulates at a joint or close beside a muscle, what we call Rheumatism or Neuralgia, gives its painful warning. When it stops at other points other diseases result—Heart Disease or Kidney Trouble or Catarrh.

All ill-health is caused by waste matter clogging the channels of the body.

There is only one way to get that out—the blood must carry it.

## HOW LIFE PLANT HELPS THE BLOOD

When pain or weakness cries out that some of this waste—physicians call it uric acid—is clogging circulation and poisoning our blood—that is the beginning of disease.

What is to be done? The blood must be helped. Just as soap (which contains alkali) removes impurities from the skin by dissolving them—so alkaline introduced into the system dissolves uric salts so that the blood can carry them to the kidneys.

**LIFE PLANT**, a formula of herb remedies is a natural solvent of uric salts. It is not a patent medicine. It contains no narcotics to dull pain and enslave you to its use—no alcohol to stimulate you temporarily at the expense of your constitution.

Thousands of people have been cured by **LIFE PLANT**. We will be glad to send you copies of their letters. WRITE US today.

## SYMPTOMS OF EXCESS URIC ACID

Darting pains, palpitation, shortness of breath, headaches, biliousness, poor digestion, dry skin, dark colored urine, sluggish brain, sleeplessness, and in women, menstrual disorders. These symptoms must not be neglected. They are the sure signals of disease.

If you have any of the above symptoms—certain warnings of serious illness—do not delay. Take **LIFE PLANT**. If you already have any disease following any of these symptoms—take **LIFE PLANT** at once. Be Healthy!

## THE VELVET SECRET IS FREE TO YOU

THE LONGER THE LESSER—A WONDERFUL DISCOVERY

After many years of study and practice a prominent Virginia physician has discovered the cure for all forms of Constipation. It is called Chase's Constipation Tablet. "I do not mean, said the Virginia Doctor to several of his colleagues announcing his success—that this is a fake cure, guaranteed to cure every thing from pimples to paralysis, neither do I mean just another pill which breeds the pill habit; my remedy is a cure for one thing—a specific which never fails. By gentle action it restores the organs so that they perform their natural functions. It restores them all to health and strength, relieves immediately and in a short time cures Constipation."

## THE MORE THE LESS

saves all energy and makes life a burden; it opens the doors to all evil germs and makes the body too weak to resist them.

## THE VELVET WORKER

Don't shuffle along with this great burden! Be healthy, be strong, be happy.

## LIFE WORTH LIVING

No man or woman with torpid liver, constipated bowels and poisoned brain and nerves ever feels like that.

Go to your druggist and get a bottle of Chase's Constipation Tablets, and if after a fair trial you find the remedy is not all it is represented to be, your druggist will refund money without question or argument. In watch case bottles, that fit the vest pocket, 25 cents.

## FREE TRIAL OFFER

To any reader who sends us his or her name and address with five stamps for full sized bottles. We will at once mail a full size 25-cent bottle of Chase's Constipation Tablets, the velvet worker that cures. Not a sample, mind, but a full-size 25-cent bottle. Let us prove it to you. It is especially called for in cases of amenorrhoea which are accompanied by general debility and an aching (weak) condition of the digestive organs, as it increases the appetite and promotes digestion and assimilation. When there is atony (weakness) of the generative organs and a tendency to miscarriage its tonic influence upon the sexual system

The following are among the leading indications for Helonias: "Pain or aching in the back, with leucorrhoea; atonic (weak) conditions of the reproductive organs of women; constant depression and irritability, associated with chronic diseases of the reproductive organs of women; constant separation of heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhoea (suppressed menstruation), arising from accompanying an abnormal condition of the digestive organs and an aching in the back; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no female can afford to neglect the use of Dr. Pierce's Favorite Prescription, one of the leading and pre-eminent ingredients of which is Unicorn root, or Helonias, associated with other equally efficient medicinal extracts of native roots.

From the above extracts it will be understood why Dr. Pierce is so successful in curing diseases peculiar to women with a carefully prepared glyceric extract of the above mentioned roots. In just the right proportions—this compound being called Dr. Pierce's Favorite Prescription. As a solvent and preservative, glycerine is superior to alcohol and is entirely unobjectionable. The "Favorite Prescription" is the only medicine put up for sale through druggists in the form of a woman's peculiar ailments that does not contain alcohol and that too in large quantities. It is also the only non-secret medicine for women sold by druggists. Its ingredients are printed in full on the bottle wrapper and in plain English.

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicine freely before them because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers of all the several schools of practice as cures for the diseases for which these medicines are recommended.

Your druggists sell the "FAVORITE PRESCRIPTION" and also that famous alterative, blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., which he is chief consulting physician.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

A good medical book, written in plain English, and free from technical terms is the value of many frequent consultations. Such a work is Dr. Pierce's Common Sense Medical Adviser. It's a book of 1068 pages, profusely illustrated. It is given away now, although formerly sold in cloth binding for \$1.50. Send 5 cents, in one-cent stamps, to pay for cost of mailing only for paper-covered copy, addressing Dr. R. V. Pierce, Buffalo, N. Y.; or 31 cents for an elegantly cloth-bound copy.

## SECOND CLASS CITY MEASURES SIGNED

Among Them is Bill to Enable Mayor to Appoint City Solicitor.

Another Is in Regard to Sewer Construction, Streets and Alleys, and Circuit Judge.

ONE SMALL BILL WAS VETOED.

Frankfort, Ky., March 24.—Gov. Beckham took action on fifteen more legislative measures, approving and signing fourteen of them and vetoing one. He also approved one resolution. The Racing commission bill and the Legislative districting measure are among those set aside to become laws without approval.

The bill vetoed is also of little importance. It is senate bill 85, offered by Senator W. H. Cox, of Mayfield, proposing in its title to better prevent fraud in real estate transactions. In the opinion of the governor the act would have a contrary effect, and it is for this reason that he prevents its being placed upon the statute books.

The bills signed are:

Chapter 123—House bill No. 358, authorizing appointment of not less than thirty policemen in cities of the second class. Intended for the benefit of the city of Paducah.

Chapter 124—Senate bill No. 137, appropriating \$54,000 for two state penitentiaries; new hospitals, dental collectors and improved workshops are provided for.

Chapter 125—Senate bill No. 226, authorizing the mayor of second class cities to fill by appointment the office of city solicitor, instead of his being elected.

Chapter 126—Senate bill No. 215, authorizing counties containing cities of the second class to supplement the salary of the circuit judge. Is for the benefit of Paducah.

Chapter 127—Senate bill No. 281, regulating the time and terms of court in Nineteenth, Twentieth and Thirty-second judicial districts.

Chapter 128—House bill No. 48, giving city council of second class cities complete control in matter of constructing streets and sidewalks.

Chapter 129—House bill No. 44, authorizing construction of sewers in cities of the second class at cost of abutting property owners.

Chapter 130—House bill No. 345, giving city council of second class cities control of all streets, alleys, sidewalks, wharves in such cities in matter of improvements.

Chapter 131—Senate bill No. 272, ratifying charters heretofore made of articles of consolidation of corporations of this state.

Chapter 132—House bill No. 125, appropriating \$20,000 for the state institution for Feeble-Minded Children. To be used to build electric plant and laundry.

## THE VALUE OF CHARCOAL.

Few People Know How Useful It Is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system. Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh. All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

Chapter 133—Senate bill No. 261, authorizing city council in cities of fifth class to appoint a policeman in addition to the marshal.

Chapter 134—House bill No. 228, regulating fees for milling; limiting charge to one-seventh.

Chapter 135—House bill No. 70, authorizing assessors of cities of the second class to begin work on September 1 of each year instead of September 15.

Chapter 136—Senate bill No. 55, to reimburse the Kentucky Title company of Louisville, for money paid into the state treasury as taxes under the old Hewitt law.

The resolution approved by the governor provides for the appointment of a legislative commission to revise the public printing laws of the commonwealth and submit to the general assembly of 1908 a new printing law.

The governor has vetoed house resolution No. 21, authorizing the appointment of a commission to revise the insurance laws and make recommendations. In vetoing the resolution Gov. Beckham states that he was guided by the advice of the insurance department, which he presents with his veto, in which the insurance commissioner holds that the proposed commission could do no good at the present time, though it might be feasible by the time the next legislature meets.

The governor vetoed a bill relating to proclamations of the governor of rewards for fugitives.

The bill placing the fees of the chancery commissioners on a salary basis was approved by the governor.

It seems the only rational remedy for coughs and colds would be to move the bowels and clean the mucous membranes of the throat and lungs at the same time. Kennedy's Laxative Honey and Tar does this. It is the original Laxative Cough Syrup, the best known remedy for coughs, colds, croup, whooping cough, etc. Tastes good and harmless. Sold by Lang Bros.

Former Mayfield Man Dies. Mayfield, Ky., March 24.—Mr. Dan Reeves, brother of T. D. Reeves, and well known to the people of Mayfield and Graves county, died very suddenly Wednesday, March 21st, at 1 o'clock p. m. at his home in Ft. Smith, Ark. He left a wife and two daughters and was about 50 years old.

Indigestion is much of a habit. Don't get the habit. Take a little Kodol Dyspepsia Cure after eating and you will quit belching, puffing, palpitating and frowning. Kodol digests what you eat and makes the stomach sweet. Sold by Lang Bros.

The Sultan Still Sick. Constantinople, Mar. 24.—The Sultan is still ill and has been confined to the palace several days. Some anxiety is felt regarding his condition.

The best safeguard against headache, constipation and liver troubles is DeWitt's Little Early Risers. They don't gripe. Sold by Lang Bros.

## A STRIKE CERTAIN IT IS PREDICTED

Conference of Kentucky Operators and Miners Wednesday.

Should the Expected Strike Come It Will Affect Only West Kentucky Coal Mines.

PESSIMISTIC VIEW IS TAKEN.

Louisville, Ky., March 24.—That there will be no settlement of the differences between the coal miners and operators in the present controversy over wage scales, and that a strike is imminent, is the opinion of prominent operators who arrived in Louisville yesterday from the Indianapolis meeting. A joint conference of the Kentucky operators and miners will be held in Louisville next week.

Unless the Indianapolis conference accomplishes a settlement of the controversy, it is declared by operators and miners that nothing will come of the Kentucky conference. The Indianapolis conference affects the mines in Illinois, Indiana, Ohio and Pennsylvania, and although Kentucky is not associated with the conference, the decision of the operators and miners will govern the decision to be reached by the owners and workers in Kentucky.

Should the general strike be declared, only the mines in Western Kentucky will be affected. The majority of the mines in Eastern Kentucky are governed by a contract, which is operative until next August.

According to the latest reports received by the Louisville men, a proposition was made by the miners to the operators to adopt the scale of 1903. This scale is about four and one-half cents higher than the present scale of prices. The proposition has been refused, it is said, on account of other contingencies, relating to hours, blasting and labor rule. The most important issue which has arisen, and one which has kept the miners and operators apart, has been the blasting regulations.

According to the 1903 scale, which the miners wished to have adopted, the operators stood the expense of blasting. This, it is claimed, amounts to between four and five cents a ton. The difference between the two bodies at present amounts to about that figure, which, appearing relatively small to the uninterested party, is said to be a large difference, and one not easy to overcome.

The call for the joint meeting of the Kentucky miners and operators of the western portion of the state will be issued within the next day or so. According to the contract between the miners and operators now in existence, the joint conference to fix the wage scale must be called before April 1 when the contract expires.

Chances for an amicable agreement between the miners and operators, the operators say, are very slim, and a few are positive in their declaration that no settlement will be reached and that the threatened strike is sure to come.

Farmer Becomes Insane. Elftsha Wilson, of the Farmer neighborhood, who went insane and also on the rampage yesterday, is at it again. Sheriff Edwards had hardly got to town before he was telephoned that Wilson was engaged in the seemingly needless pastime of cutting down telephone poles. The sheriff decided not to take the man into custody without an order of county court. Judge Wells is at Benton.—Murray Ledger.

If you have used Witch Hazel Salve without being relieved it is probable that you got hold of one of the many worthless counterfeits that are sold on the reputation of the genuine DeWitt's Witch Hazel Salve. Sold by Lang Bros.

—The White Rock on Bonanza Mountain of the Paducah Bullfrog company will be developed into a paying mine. It is now surrounded by producing mines. Stock advances to 17½ cents per share. April 1st. Buy now at 15 cents.

—No. 4. The spendthrift—never has anything to invest. If No. 4 fits you, disprove it in the future by buying stock in the Paducah Bullfrog Co. A sure winner.

## FIRST FIND THE CAUSE

Half the work the blood has to do is to carry nourishment to the system. The other half is to carry waste matter to the kidneys, which expel it from the system. When the blood gets weak or sluggish, the first effect is an accumulation of waste matter. The danger of this waste matter is here explained.

### HOW BLOOD AFFECTS HEALTH

Blood is our life force. Every particle of our body is built, rebuilt and sustained by blood. More than this, every bit of waste in the body must be washed out through the kidneys by the blood. This red life blood is constantly bringing new life force and carrying away waste matter.

When the blood loses any of this waste, fails to get it out of the body, disease begins. If the poisonous waste accumulates at a joint or close beside a muscle, what we call Rheumatism or Neuralgia, gives its painful warning. When it stops at other points other diseases result—Heart Disease or Kidney Trouble or Catarrh.

All ill-health is caused by waste matter clogging the channels of the body.

There is only one way to get that out—the blood must carry it.

### HOW LIFE PLANT HELPS THE BLOOD

When pain or weakness cries out that some of this waste—physicians call it uric acid—is clogging circulation and poisoning our blood—that is the beginning of disease.

What is to be done? The blood must be helped. Just as soap (which contains alkali) removes impurities from the skin by dissolving them—so alkaline introduced into the system dissolves uric salts so that the blood can carry them to the kidneys.

**LIFE PLANT**, a formula of herb remedies is a natural solvent of uric salts. It is not a patent medicine. It contains no narcotics to dull pain and enslave you to its use—no alcohol to stimulate you temporarily at the expense of your constitution.

### SYMPTOMS OF EXCESS URIC ACID

Darting pains, palpitation, shortness of breath, headaches, biliousness, poor digestion, dry skin, dark colored urine, sluggish brain, sleeplessness; and in women, menstrual disorders. These symptoms must not be neglected. They are the sure signals of disease.

## THE VELVET SECRET IS FREE TO YOU

THE LONGER THE LESSER—A WONDERFUL DISCOVERY

After many years of study and practice a prominent Virginia physician has discovered the cure for all forms of Constipation. It is called **Chase's Constipation Tablet**. "I do not mean, and the Virginia Doctor to several of his colleagues announcing his success that this is a false cure-all, guaranteed to cure every case of constipation. Neither do I mean just another pill which breeds the pill habit; my remedy is a cure for one thing—a specific which never fails. By gently toning the digestive organs so that they perform their natural function it restores them all to health and strength, relieves immediately and in a short time cures Constipation."

## THE MORE THE LESS

"The more you take the less you need until you need none—for you are cured. My effort all along was to avoid the evil of the ordinary remedy which purgates organs already weak and so makes the patient a slave to the pill. Remember—Nature expects every organ to do its duty."

Physicians have long recognized the fact that constipation is at the bottom of nearly every disease. It saps all energy and makes life a burden; it opens the doors to all evil germs and makes the body too weak to resist them.

## THE VELVET WORKER

Don't shuffle along with this great burden. Be healthy, be strong, be happy.

## LIFE WORTH LIVING

No man or woman with torpid liver, constipated bowels and poisoned brain and nerves ever feels like that. Go to your druggist and get a bottle of **Chase's Constipation Tablets**, and if after a free trial you and the remedy are not all it is represented to be, your druggist will refund money without question or argument. In watch shape bottles, that fit the vest pocket, 25 cents.

### CHAPTER VI. THE ARGONAUTS RETURN TO THE RISING SUN.

It was mid-October. The two saddle horses and a team for carriage use had been shipped ahead. In the private car the Bines party was beginning its own journey eastward. From the rear platform they had watched the tall figure of Uncle Peter Bines standing in the bright autumn sun, aloof from the band of kerchief-waving friends, the droop of his head and shoulders showing the dejection he felt at seeing them go. He had resisted all entreaties to accompany them.

His last injunction to Percival had been to marry early.

"I know your stock and I know you," he said; "and you got no call to be rangin' them pastures without a brand. You never was meant for a maverick. Only don't let the first woman that comes ridin' herd get her iron on you. No man knows much about the critters, of course, but I've noticed a few things in my time. You pick one that's full-chested, that's got a fair-sized nose, and that likes cats. The full chest means she's healthy, the nose means she ain't flincky, and likin' cats means she's kind and honest and unselfish. Ever notice some women when a cat's around? They pretend to like 'em and say 'Nice kitty!' but you can see they're viewin' 'em with bitter hate and suspicion. If they have to stroke 'em they do it plenty gingerly and you can see 'em shudderin' inside like. It means they're catty themselves. But when one grabs a cat up as if she was goin' to eat it and cuddles it in her neck and talks baby-talk to it, you play her fur bein' sound and true. Pass up the others, son."

As the train started he swung himself off with a sad little "Be good to yourself!"

"Thank the Lord we're under way at last!" cried Percival, fervently, when the group at the station had been shut from view.

"Isn't it just heavenly!" exclaimed his sister. "Think of having all of New York you want—being at home there—and not having to look forward to this desolation of a place."

Mrs. Bines was neither depressed nor elated. She was maintaining that calm level of submission to fate which had been her lifelong habit. The journey and the new life were to be undertaken because they formed for her the line of least resistance along which all energy must flow. Had her children elected to camp for the remainder of their days in the center of the desert of Gobi, she would have faced that life with as little sense of personal concern and with no more misgivings.

Down out of the maze of hills the train wound; and then by easy grades after two days of travel down off the great plateau to where the plains of Nebraska lay away to a far horizon in brown billows of withered grass.

Then came the crossing of the sullen, sluggish Missouri, that highway of an earlier day to the great northwest; and after that the better wooded and better settled lands of Iowa and Illinois.

"Now we're getting where Christians live," said Percival, with warm appreciation.

"Why, Percival," exclaimed his mother, reprovingly, "do you mean to say there aren't any Christians in Montana City? How you talk! There are lots of good Christian people there."

And even Mrs. Bines was not without a sense of quiet and rest induced by the gentler contours of the landscape through which they now sped.

"The country here does seem a lot cozier," she admitted.

The hills rolled away amiably and reassuringly; the wooded slopes in their gay coloring of autumn invited confidence. Here were no forbidding stretches of the gray alkali desert, no grim bare mountains, no solitude of desolation. It was a kind land, fat with riches. The shorn yellow fields, the capacious red barns, the well-conditioned homes, all told eloquently of peace and plenty. So, too, did the villages—those lively little clearing houses for immense farming districts. To the adventurer from New York they seem always new and crude. To our travelers from a newer, cruder region they were actually aesthetic in their suggestions of an old and well-established civilization.

In due time they were rattling over a tangled maze of switches, dodging interminable processions of freight cars, barely missing crowded passenger trains whose bells struck clear and then flatted as the trains flew by; defiling by narrow waterways, crowded with small shipping; winding through streets lined with high, gloomy warehouses, amid the clang and clatter, the strangely sounding bells and whistles of a thousand industries, each sending up its just contribution of black smoke to the pall that lay always spread above; and steaming at last into a great roomy shed where all was system, and where the big engine trembled and panted as if in relief at having run in safety a gantlet so hazardous.

"Anyway, I'd rather live in Montana City than Chicago," ventured Mrs. Bines.

"Whatever pride you may feel in your discernment is amply justified," replied her son, performing before the amazed lady a bow that indicated the lowest depths of slavish deference.

"I am now," he continued, "going out to pace the floor of this locomotive boudoir for a few exhilarating breaths of smoke, and pretend to myself that I've got to live in Chicago forever. A

little discipline like that is salutary to keep one from forgetting the great blessing which a merciful Providence has conferred upon one."

"I'll walk a bit with you," said his sister, donning her jacket and a cap. "Least my remarks have seemed indeterminate, madam," sternly continued Percival at the door of the car, "permit me to add that if Chicago were Heaven I should at once enter upon a life of crime. Do not avert to misundestand me, I beg of you. I should leave no avenue of salvation open to my precious soul. I should incur no risk of being numbered among the saved. I should be b-a-d, and I should sit up nights to invent new ways of evil. If I had any leisure left from being as wicked as I could be, I should devote it to teaching those I loved how to become abandoned. I should doubtless issue a pamphlet, 'How to Merit Perdition Without a Master. Learn to Be Wicked in Your Own Home in Ten Lessons. Instructions Sent Securely Sealed from Observation. Thousands of Testimonials from the Most Accomplished Reprobates of the Day.' I trust that you will never again so far forget yourself as to utter that word 'Chicago' in my presence. If you feel that you must give way to the evil impulse, go off by yourself and utter the name behind the protection of closed doors—where this innocent girl cannot hear you. Come, sister. Otherwise I may behave in a manner to be regretted in my calmer moments. Let us leave the woman alone, now. Besides, I've got to go out and help the hands make up as if she was goin' to eat it and cuddles it in her neck and talks baby-talk to it, you play her fur bein' sound and true. Pass up the others, son."

Thus flippantly do some of the younger sons of men blaspheme this metropolis of the mid-west—a city the creation of which is, by many persons of discrimination, held to be the chief romance and abiding miracle of the nineteenth century.

Let us rejoice that one such partisan was now at hand to stem the torrent of abuse. As Percival held back the door for his sister to pass out, a stout little ruddy-faced man with trim gray side-whiskers came quickly up the steps and barred their way with cheery aggressiveness.

"Ah! Mr. Higbee—well, well!" exclaimed Percival, cordially.

"Thought it might be some of you folks when I saw the car," said Higbee, shaking hands all around.

"And Mrs. Bines, too! and the girl, looking like a Delaware peach when the crop's failed." How's everybody, and how long you going to be in the good old town?"

### SHAEFFER MURDER.

Is Still Being Investigated at Bedford, Ind.

Bedford, Ind., March 24.—The grand jury is still investigating the mystery surrounding the murder of Sarah Shaeffer. Many witnesses are daily examined. Among them is Wm. Barnes, who was under arrest at Denver, Col., under suspicion that he was the man found in the Brooks Curtis boiler-room on the night of the murder by Watchman Shroust, and who, when questioned, by Shroust replied that the two men with whom he had been talking in the town had sent him there to dry himself. One of these men is now a resident of Indianapolis. He was before the grand jury yesterday, and was questioned for two hours.

Judge Wilson reports that the grand jury will have to adjourn today, as the term of the court will then end. Owing to the strictest secrecy on the part of the officials, and their caution to witnesses, nothing can be learned as to the character of the testimony which is being submitted, or whether or not indictments will be returned. Public opinion is about evenly divided as to what the result will be.

### Cured Consumption.

Mrs. B. W. Evans, Clearwater, Kan., writes, My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal. 25c, 50c and \$1.00. Sold by Alvey & List.

Ex-Gov. Taylor Subject of Prayer.

St. Louis, March 24.—Former Gov. W. S. Taylor, of Kentucky, who has been pursued for several years by that state in connection with the Goebel assassination, was the subject of a prayer last Wednesday night at Christ church cathedral, Thirtieth and Locust streets, during the Lenten mission conducted by Fathers Huntington and Sill of the order of the Holy Cross. The missionaries' custom is to receive requests for prayer, and at 7:45 o'clock each night repeat these requests in their intercessions.

Among the requests received by the clergymen was one for former Gov. Taylor.

Invaluable For Rheumatism.

I have been suffering for the past few years with a severe attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my pains. March 24, '02: John C. Degnan, Kinsman, Wis. 25c, 50c and \$1.00. Sold by Alvey & List.

### CHAPTER VI. THE ARGONAUTS RETURN TO THE RISING SUN.

It was mid-October. The two saddle horses and a team for carriage use had been shipped ahead. In the private car the Bines party was beginning its own journey eastward. From the rear platform they had watched the tall figure of Uncle Peter Bines standing in the bright autumn sun, aloof from the band of kerchief-waving friends, the droop of his head and shoulders showing the dejection he felt at seeing them go. He had resisted all entreaties to accompany them.

His last injunction to Percival had been to marry early.

"I know your stock and I know you," he said; "and you got no call to be rangin' them pastures without a brand. You never was meant for a maverick. Only don't let the first woman that comes ridin' herd get her iron on you. No man knows much about the critters, of course, but I've noticed a few things in my time. You pick one that's full-chested, that's got a fair-sized nose, and that likes cats. The full chest means she's healthy, the nose means she ain't flinkey, and likin' cats means she's kind and honest and unselfish. Ever notice some women when a cat's around? They pretend to like 'em and say 'Nice kitty!' but you can see they're viewin' 'em with bitter hate and suspicion. If they have to stroke 'em they do it plenty gingerly and you can see 'em shudderin' inside like. It means they're 'catty' themselves. But when one grabs a cat up as if she was going to eat it and cuddles it in her neck and talks baby-talk to it, you play her fur bein' sound and true. Pass up the others, son."

As the train started he swung himself off with a sad little "Be good to yourself!"

"Thank the Lord we're under way at last!" cried Percival, fervently, when the group at the station had been shut from view.

"Isn't it just heavenly!" exclaimed his sister. "Think of having all of New York you want—being at home there—and not having to look forward to this desolation of a place."

Mrs. Bines was neither depressed nor elated. She was maintaining that calm level of submission to fate which had been her lifelong habit. The journey and the new life were to be undertaken because they formed for her the line of least resistance along which all energy must flow. Had her children elected to camp for the remainder of their days in the center of the desert of Gobi, she would have faced that life with as little sense of personal concern and with no more misgivings.

Down out of the maze of hills the train wound; and then by easy grades after two days of travel down off the great plateau to where the plains of Nebraska lay away to a far horizon in brown billows of withered grass.

Then came the crossing of the sullen, sluggish Missouri, that highway of an earlier day to the great northwest; and after that the better wooded and better settled lands of Iowa and Illinois.

"Now we're getting where Christians live," said Percival, with warm appreciation.

"Why, Percival," exclaimed his mother, reprovingly, "do you mean to say there aren't any Christians in Montana City? How you talk! There are lots of good Christian people there."

And even Mrs. Bines was not without a sense of quiet and rest induced by the gentler contours of the landscape through which they now sped.

"The country here does seem a lot cozier," she admitted.

The hills rolled away amiably and reassuringly; the wooded slopes of their gay coloring of autumn invited confidence. Here were no forbidding stretches of the gray alkali desert, no grim bare mountains, no solitude of desolation. It was a kind land, fat with riches. The shorn yellow fields, the capacious red barns, the well-conditioned homes, all told eloquently of peace and plenty. So, too, did the villages—those lively little clearing houses for immense farming districts. To the adventurer from New York they seem always new and crude. To our travelers from a newer, cruder region they were actually aesthetic in their suggestions of an old and well-established civilization.

In due time they were rattling over a tangled maze of switches, dodging interminable processions of freight cars, barely missing crowded passenger trains whose bells struck clear and then flatted as the trains flew by; dodging by narrow waterways, crowded with small shipping; winding through streets lined with high, gloomy warehouses, amid the clang and clatter, the strangely sounding bells and whistles of a thousand industries, each sending up its just contribution of black smoke to the pall that lay always spread above; and steaming at last into a great roomy shed where all was system, and where the big engine trembled and panted as if in relief at having run in safety a gantlet so hazardous.

"Anyway, I'd rather live in Montana City than Chicago," ventured Mrs. Bines.

"Whatever pride you may feel in your discernment is amply justified," replied her son, performing before the amazed lady a bow that indicated the lowest depths of slavish deference.

"I am now," he continued, "going out to pace the floor of this locomotive boudoir for a few exhilarating breaths of smoke, and pretend to myself that I've got to live in Chicago forever. A

little discipline like that is salutary to keep one from forgetting the great blessing which a merciful Providence has conferred upon one."

"I'll walk a bit with you," said his sister, donning her jacket and a cap. "Let me make remarks as we go. I determine, madam," sternly continued Percival at the door of the car, "to permit me to add that if Chicago were Heaven I should at once enter upon a life of crime. Do not avert to misundestand me, I beg of you. I should leave no avenue of salvation open to my precious soul. I should incur no risk of being numbered among the saved. I should be a-d, and I should sit up nights to invent new ways of evil. If I had any leisure left from being as wicked as I could be, I should devote it to teaching those I loved how to become abandoned. I should doubtless issue a pamphlet, 'How to Merit Perdition Without a Master. Learn to Be Wicked in Your Own Home in Ten Lessons. Instructions Sent Securely Sealed from Observation. Thousands of Testimonials from the Most Accomplished Reprobates of the Day.' I trust that you will never again so far forget yourself as to utter that word 'Chicago' in my presence. If you feel that you must give way to the evil impulse, go off by yourself and utter the name behind the protection of closed doors—where this innocent girl cannot hear you. Come, sister. Otherwise I may behave in a manner to be regretted in my calmer moments. Let us leave the woman alone, now. Besides, I've got to go out and help the hands make up that New York train. You never can tell. Some horrible accident might happen to delay us here 30 minutes. Cheer up, ma; it's always darkest just before leaving Chicago, you know."

Thus flippantly do some of the younger sons of men blaspheme this metropolis of the mid-west—a city the creation of which is, by many persons of discrimination, held to be the chief romance and abiding miracle of the nineteenth century.

Let us rejoice that one such partisan was now at hand to stem the torrent of abuse. As Percival held back the door for his sister to pass out, a stout little ruddy-faced man with trim gray side-whiskers came quickly up the steps and barred their way with cheery aggressiveness.

"Ah! Mr. Higbee—well, well!" exclaimed Percival, cordially. "Thought it might be some of you folks when I saw the car," said Higbee, shaking hands all around.

"And Mrs. Bines, too! and the girl, looking like a Delaware peach when the crop's failed." How's everybody, and how long you going to be in the good old town?"

### SHAEFFER MURDER.

Is Still Being Investigated at Bedford, Ind.

Bedford, Ind., March 24.—The grand jury is still investigating the mystery surrounding the murder of Sarah Shaeffer. Many witnesses are daily examined. Among them is Wm. Barnes, who was under arrest at Denver, Col., under suspicion that he was the man found in the Brooks Curtis boiler-room on the night of the murder by Watchman Shrou, and who, when questioned, by Shrou replied that the two men with whom he had been talking in the town had sent him there to dry himself. One of these men is now a resident of Indianapolis. He was before the grand jury yesterday, and was questioned for two hours.

Judge Wilson reports that the grand jury will have to adjourn today, as the term of the court will then end. Owing to the strictest secrecy on the part of the officials, and their caution to witnesses, nothing can be learned as to the character of the testimony which is being submitted, or whether or not indictments will be returned. Public opinion is about evenly divided as to what the result will be.

### Cured Consumption.

Mrs. B. W. Evans, Clearwater, Kan., writes, My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal. 25c, 50c and \$1.00. Sold by Alvey & List.

### Ex-Gov. Taylor Subject of Prayer.

St. Louis, March 24.—Former Gov. W. S. Taylor, of Kentucky, who has been pursued for several years by that state in connection with the Goebel assassination, was the subject of a prayer last Wednesday night at Christ church cathedral. Thirtieth and Locust streets, during the Lenten mission conducted by Fathers Huntington and Sill of the order of the Holy Cross. The missionaries' custom is to receive requests for prayer, and at 7:45 o'clock each night repeat these requests in their intercessions.

Among the requests received by the clergymen was one for former Gov. Taylor.

Invaluable For Rheumatism.  
I have been suffering for the past few years with a severe attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my pains. March 24, '02: John C. Degnan, Kinsman, Wis. 25c, 50c and \$1.00. Sold by Alvey & List.

### New Undertaking Establishment.

Mr. Guy Nance, who has been preparing to open a new undertaking establishment here for the past two weeks, will probably open for business about the first of the week. He has received a number of fine caskets and other stock, and his hearse is expected at any time. His horses, a span costing \$500, will be down on the Georgia Lee from Cincinnati.

—No. 9. The unfortunate man — has a friend who invested and lost. Very sorry indeed for No. 9. He ought to shake his friends and buy stock in Paducah Bullfrog Co. and make more fortunate friends and money at the same time.

Tobacco Growers Sued.  
Clarksville, Tenn., March 24.—The Dark Tobacco District Planters' Protective Association has filed five suits against as many farmers of Trigg county, Kentucky, for the alleged violation of contract, claiming in its petition that the defendants without knowledge or consent of the association, sold their crops of tobacco which had been pledged to the association. The suits are filed against E. F. and R. K. Goodwin, Herbert and Linn Galloway, George and Eva Ladd and A. P. Russell. The petitions state that the contract ex-

isting between the above parties and the association was one of mutual benefit and that if the above parties are allowed to deliver their tobacco without the consent of the association it will do the latter great and irreparable injury and damage. The court has not yet acted in the matter.

### Next Week

**NEXT WEEK AT THE KENTUCKY.**  
Monday night and balance of the week "The Rodney Stock Company." Matinees Wednesday and Saturday. Ladies free Monday night.

**The Rodney Stock Company.**  
Will begin an engagement of six nights and two matinees on Monday night. The company comes well recommended as being one of the strongest repertoire companies on the road, this being its first appearance here.

The opening bill will be the four act comedy drama, "A Mysterious Man." Ladies will be admitted free on Monday night when accompanied by a person holding a paid thirty-cent ticket if purchased before 5 o'clock Monday afternoon.

Matinee days will be Wednesday and Saturday afternoons.

An exchange has the following to say of the company which played Cairo last week: "The Rodney Stock company opened a five night's engagement at the Cairo opera house. G. Bert Rodney and Miss Vane Calvert playing the leading parts, were well received by the audience. Mr. Rodney, better known in Cairo as Bert Vincent, is an actor of ability, and his many friends who were fortunate enough to see him last night, predict a bright future for him. Miss Calvert is a very attractive and clever comedienne and proved a great favorite. MacVoy and Seabright, the feature vaudeville act presented by the Rodney Stock company in acrobatic rope jumping is the best act of its kind ever seen on the Cairo opera house stage."

### Before and After.

The sobriquet of the Juno of the Stage has been bestowed upon Miss Jean Newcombe, one of the several delightful comedienne in "Before and After." Leo Dietrichstein's merry farce which is to come to The Kentucky on April 2nd. This statuesque daughter of Thespis boasts one of the most beautifully athletic figures to be seen before the footlights. She is a stunning type of robust womanhood. In spite of all this she laughingly declares that she does not go in for athletics. "I scarcely know a dumb bell from a tennis racquet," she declares, "and as for any dietary rules, my only rule is to eat whatever I like and as much as I like. The other day a dear friend of mine who writes for the magazines those knowing Beauty

Hints and articles on how to develop the body, or how to broaden the shoulders (poor fragile little thing, she is about the width and delicacy of a rose petal herself) asked me to confide to her my rules of health. I could only tell her, I knew of no recipes except contentment. Like Topsy I had "just growed."

### Henrietta Crossman.

Promise of a rare treat is held forth at The Kentucky for Tuesday, April 3, when Henrietta Crossman, one of the most gifted and most popular of American actresses will appear in her latest and most marked New York success, the new modern comedy, "Mary, Mary, Quite Contrary." In none of the plays which she has formerly presented did Miss Crossman make the hit she has made in "Mary, Mary, Quite Contrary." All who know of her personal charm, her grace, sprightliness and spontaneity will understand how delightful she must be as a young woman of today. The character she plays is of an up-to-date young woman of wealth and position who is trying to assist a friend and avert possible jealousy arising from the sudden appearance of a former admirer, loses her heart to the man she has been striving to outwit. The play abounds in delightful comedy, merriment and gaiety.

### Railroads "Padded" the Mail.

Galveston, Tex., March 24.—The postoffice department has unearthed a scheme of the railroads to defraud the government by padding the mails while the mail weighing season is on. Three weeks ago it was discovered that the Texas mails showed astounding increase, the mails being padded or stuffed with magazines, newspapers and even first class matter. Three of the roads have been notified that they cannot be considered in the competition until they clear themselves of the charges. The railroads, while admitting the unusual increase in the mails, attribute it to enterprising publishing houses.

### KNIGHTS OF COLUMBUS.

**Special to Jackson, Tenn.**  
A special train will leave Broadway depot at 6:00 a. m. and Union depot Paducah 6:05 a. m. Sunday, March 25th, for Jackson, Tenn., via Illinois Central R. R., to carry Knights of Columbus attending the institution of Jackson council. The families and friends of members will be welcome. Fare for the round trip \$3.30.

### LATE BASEBALL NEWS

The Vincennes, Ind., team which won the pennant in the Kitty league last season, is ready for the bell to lap. Manager Eddie Kolb has all his old men back, save two, who were drafted, and has added enough talent to make his team a most formidable aggregation for 1906, and looks like the rest of the clubs of this hustling little league will have a hard pace to follow. Manager Kolb announces his list of candidates as follows: Pitchers, Perdue, Whitley, Wampler, Wallace, Stauffer, Geary, Backman, and two others under consideration; catchers, Thoss and Burson; infielders, Wilkinson, Bierkotte, French, Mitchell and Borbour; outfielders, Bartley, Wheeler, Moran, McDonnell and McClellan.

Gaston one of the best of the K. I. T. league team of 1905, is playing center for New Orleans and his fielding was a feature of the opening game.

Secretary Farrell's latest bulletin of March 17 shows that Paducah has forwarded the following contracts for recording: Otto Winters, D. Ashton, W. K. Hank, James Connor, F. H. Miller, Martin Miller, C. Frazier, H. C. Wiggam, W. B. Bruenfield, Bert Haas, W. Chenault, C. E. Wilgus, W. P. Kelly, G. R. Adams.

Vincennes is after a left handed pitcher by the name of George Schrauder. Last year he was with the Chester Naves, an amateur team of Cincy.

President Gosnell has announced the following as his staff of umpires: Ed Hackett, Kansas City; W. W. Veach, Indianapolis, and G. C. Bush, St. Louis. Bush is of last year.

### ALL STORES

**Will Not Be Closed Tomorrow—Some Can Remain Open.**

Chief Collins has issued instructions to the police to see that no establishments are open tomorrow except those permitted to open by law. The saloons, mercantile and manufacturing establishments, and such things, must close. Confectioneries, book stores and news stands, cigar stores, bakeries, drug stores, livery stables and such things are permitted by a decision of the court of appeals to remain open.

Mayor Yeiser states that the police have always had instructions to prevent violations of the Sunday closing law, and that it is presumed they have carried out their instructions.

### Western Men Conduct Courtship By Mail and Both Win Kentucky Brides

Munfordville Ky., March 24.—J. M. Mayo, of Indian Territory, and Miss Clara McCorkle, daughter of Hardin McCorkle, a wealthy farmer of this vicinity, were united in marriage here, Judge S. F. Middleton officiating. The contracting parties had not met each other until yesterday, as their courtship had been conducted entirely by letter and originated through an advertisement for a correspondent.

Henderson, Ky., March 24.—Miss Fannie Kerr, of Hebbardsville, this county, and Frederick Anderson, of Oklahoma, were married here at the McMullin hotel by the Rev. Mr. Orr. Their courtship was brought about through an advertisement and Mr. Anderson came to Kentucky to meet the young woman, after corresponding for some time with her. They were married a few hours after he reached here.

### RED MEN FAVOR

**The Proposed Widows and Orphans' Home Project.**

The sentiment expressed last night at a meeting of Red Men at Red Men's Hall on North Fourth street, was unanimously in favor of the proposed Widows and Orphans' Home, and the Paducah delegate, Mr. Geo. O. Ingram, was instructed to vote for it at the state meeting at Frankfort May 8.

There were 200 at the meeting last night and among them were about 40 members of the Murray Tribe, and Mr. Robert Lee Page, great junior sagamore, and Mr. H. C. Yunker, chairman of the Widows and Orphans' Home committee, were guests of honor.

There was an animated discussion of the subject, after which a fine banquet was served. The committee that prepared the banquet was composed of Messrs. William Buck, Al Foreman and A. J. Smith. On decorations the committee was composed of Messrs. Robert Richardson and Clarence Householder.

### Chicago Hotel Panic.

Chicago, Ill., March 24.—A hundred and fifty guests at Hunt's European hotel were driven from their rooms in a panic when fire broke out in the building. Members of the Pekin Zouaves and Indianapolis drill team assisted the firemen in rescuing guests many of whom became bewildered in the hallways.

—The railroad keeps coming. The rails are going down at the rate of one and one-half miles a day. The graders are within 50 miles of Rhyolite Bullfrog district and the Paducah Co.'s property.

### Troops Guard Railroads.

St. Petersburg, Fla., 24.—Troops are protecting all the railways running into the city and railway stations are guarded by soldiers to prevent revolutionaries disturbing the tracks or interfering with traffic.

No. 5. The suspicious man—always afraid somebody will rob him. The world is full of No. fives, they won't buy Paducah Bullfrog stock and they are not asked to.

# A GRAND OPENING OF SPRING MILLINERY

## Next Thursday and Friday, March 29 and 30

OUR great spring display of millinery is the most complete, most elaborate showing ever made in Paducah. Every style, every shape, every novelty that has the seal of fashion's approval for the spring and summer of 1906 will be here. It has been only through Mrs. Harbour's extraordinary buying facilities, combined with her rare taste, keen sense of beauty and inimitable ingenuity that it has been made possible to produce such charming designs and wondrously beautiful creations at prices so irresistibly low for high-class millinery. Everybody cordially invited to attend. Will have music in the afternoon of both days.

## A Great Sale of Spring and Summer Dress Goods and New Silks

The assortment and stock is bigger than most houses carry. As for prices, you will find they are, without exception, lower than like goods are sold for elsewhere.

## WOMEN'S READY MADE GARMENTS

Women's superb Silk Coats, Covert Jackets, Tailor-made Skirts, Shirt Waists, Eton Wash Suits and Silk Petticoats. It's a great stock, a big assortment and better values than can be had in any other store in this city. If you don't buy here you don't buy right. If you fail to look here you fail to do yourself justice.
